PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May cause irritation of skin. Wash hands thoroughly with soap and water after use and before eating or smoking. Wear protective gloves when applying by hand.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call physician or Poison Control Center at once. Gastric lavage is indicated if material was taken internally. Do not induce vomiting. Vomiting may cause aspiration pneumonia.

If On Skin: Remove contaminated clothing. Wash skin with soap and water.

If In Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

Prior to using, brush away dust and dirt from area on the animal to be treated. JEL may be applied by hand or a soft cloth. Best results are obtained by treatment every second or third day depending upon insect pressure.

For treatment of Horses and Ponies to control STABLE FLIES & BITTING GNATS - apply thin film to the head, neck, belly and forelegs and flanks. Be sure to apply JEL to both the inside and outside of the ears.

FACE FLIES & HOUSE FLIES: Apply a thin film of JEL to the head area, paying particular attention to area around the nose and eyes. Avoid direct contact with eyes.

To protect minor cuts, scratches and abrasions from flies, apply thin film of JEL around and lightly over the wound area without coming in direct contact with open flesh. Do not apply to open cuts requiring professional services.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feedstuff by storage or disposal.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash disposal.
