UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 19 1989

Mr. Jerry L. Senter
Insect Laboratories
1000 North Avenue North
Morgantown, W. Va. 26501

Dear Mr. Senter:

Subject: Revised Label to Include Additional Uses
Unicorn 30 Flea Spray
EPA Registration No. 25293-35
Your Submission Dated July 21, 1988

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Dennis H. Edwards, Jr.

Dennis H. Edwards, Jr.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Do not breathe spray mist. Do not contaminate food, foodstuffs or water supplies. Do not use on cats. Do not use on dogs, nursing puppies or pups under 10 weeks.

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash thoroughly with soap and water.
IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine by injection is antidotal only if symptoms of cholinesterase inhibitor is present.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INDOORS

GENERAL INFORMATION: Use to control the pests indicated in the areas as listed below by application of the product as an undiluted spray. Repeat the treatment as needed.

ON ANIMALS - Place dog on table or bench. Thoroughly spray all over body against lay of the coat. Avoid spraying into the eyes. The hair should be slightly damp down to skin level. Each application remains active in the coat killing fleas and protecting against reinfestation for up to one month after spraying. Repeat treatment as necessary. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. Free bitches from fleas before they bear pups.

INDOORS - Do not apply sprays of this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not use in poultry houses or other animal buildings. Do not apply spray to contact food, feedstuffs, and water supplies. Thoroughly wash dishes and food-handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying. APPLICATION WITHIN RESIDENTIAL BUILDINGS INCLUDING HOMES AND APARTMENT BUILDINGS AND WITHIN NON-FOOD AREAS OF INDUSTRIAL, INSTITUTIONAL, AND COMMERCIAL BUILDINGS INCLUDING HOSPITALS, STORES, MANUFACTURING PLANTS AND WAREHOUSES:

3-11

FOR SPOT TREATMENT ONLY -- Apply as a coarse spray or with a paint brush to localized areas where cockroaches (including strains resistant to certain other insecticides), ants, clover mites, crickets, firebrats, silverfish, and spiders are found or normally occur, including dark corners or rooms and closets, cracks and crevices in walls along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations.

FOR ANTS: apply to ant trails, also around doors and windows and wherever else these pests may find entrance. NOTE: A period of four to seven days is normally required to maximum effect on cockroaches.

FOR CONTROL OF CARPET BEETLES, thoroughly apply as a spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

FOR CONTROL OF FLEAS AND BROWN DOG TICKS, thoroughly apply as a spray treatment to infested areas such as pet beds, carpets, and resting quarters; nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area.

OUT-OF-DOORS

FLIES, MOSQUITOES: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate. Repeat as necessary.

ANTS, BROWN DOG TICKS, CRICKETS, FLEAS AND EARWIGS: For treatment of localized infestations of these insects in outdoor areas where there are weeds or brushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

STORAGE AND DISPOSAL

Store in original container in cool, locked storage area. Do not reuse container. Rinse thoroughly, wrap in newspaper before discarding in trash.
