Mr. Barry Santerre
Unicorn Laboratories
1000 118th Avenue North
St. Petersburg, FL 33716

Dear Mr. Santerre:

Subject: Additional Label Claims
Unicorn Ear Mite Control
EPA Registration No. 28293-42
Your Letter Dated November 3, 1992

The amendment referred to above, submitted in connection with registration under FIFRA sec., 3(c)(7)(A), is acceptable, provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling change listed below before you release the product for shipment:

a. Under Directions For Use add the following:

DIAGNOSIS: Ear mites usually induce the formation of a dry, dark brown, waxy exudate with crusts in the ears of dogs, cats, rabbits. Ear mites may be detected by placing some of the ear exudate on a dark surface and carefully watching for the movement of tiny white specks away from the exudate. Inflamed, watery, or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

b. Under Precautionary Statements add:

Not for use in animals intended for food.

c. The statement under Environmental Hazards should read as follows: "Do not contaminate water when disposing of equipment washwaters." (Note that an Environmental Hazards statement is not appropriate/necessary for a product with only containers indoor sites).

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin. Do not use on puppies or kittens less than four weeks old.

Statement of Practical Treatment

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by sticking finger in back of throat. Repeat until fluid is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Wash immediately with soap and water.

IF IN EYES: Flush with water for 15 minutes. See a physician.

Environmental Hazards

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

While holding pet firmly, fill each ear canal half full of Unicorn Ear Mite Control and massage base of ear to insure that insecticidal action penetrates ear wax. Repeat treatment every other day until condition is relieved. Improvement is usually noted after two applications.

STORAGE AND DISPOSAL

Storage: Store in original container in a locked storage area.

Disposal: Do not reuse container. Rinse thoroughly, securely wrap original container in several layers of newspaper and discard in trash.
