PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Do not breathe spray. Wash thoroughly after handling. Do not contaminate feed or feeding utensils. Cover or remove feed before spraying. Do not use on meat or dairy animals.

Statement of Practical Treatment

IF SWALLOWED: Call a physician at once. Do not induce vomiting unless no other treatment is available. Vomiting may cause aspiration pneumonia.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Wash with soap and water.

IF IN EYES: Flush eyes with plenty of water. Call physician if irritation persists.

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters.

Physical or Chemical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

UNICORN Equine Spray and Rub-On has been specifically formulated for use on your horse and pony show stock. Do not use on meat animals. This product may be sprayed or wiped on to the animal's coat and will protect your animal from biting flies. The product will also impart a bright sheen to the animal's coat. Apply regularly during fly season.

EPA REG. NO. 28293-108(E)

EPA EST. NO. 28293-71-1

As a Spray: Select a hand sprayer which will apply the product in a fine mist or fog. Use one to two ounces per animal per day. Also treat adjacent stable areas for more effective fly control. Do not wet the animal's skin. After application, brush the coat to give overall coverage. Make sure that legs and ankles are treated. For face area, treat as a wipe-on application.

To Wipe-On: Rub the animal down and remove dirt. Pour a small amount (1 ounces) into a soft cloth and wipe on against the hair grain. Make sure to treat legs, belly, the neck and the facial areas as well as the back line. Do not wet skin. After this application brush the coat to bring out a bright sheen. Repeat as needed to kill and repel biting flies. During fly time best protection will be given by treating animals 3 to 4 times each week.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Triple rinse, then offer for recycling or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
