**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Wash hands with soap and water after use. In the home, all food processing surfaces, exposed food and utensils should be covered during treatment, or thoroughly washed before use. Cover fish aquariums before spraying.

**Physical or Chemical Hazards**

**FLAMMABLE:** Keep away from heat or open flame. Do not use or store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**CATS AND DOGS**

**To Kill Brown Dog Ticks and Fleas:** Cover animal's eyes. With a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face, around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

**PUPPIES AND KITTENS**

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in.

**PETS SLEEPING QUARTERS**

Spray around baseboards, windows, door frame, wall cracks and local area of floors. If mosquitoes, gnats, or flies are present, spray lightly into the air. Repeat as needed. The pets bedding should be sprayed, making sure the area beneath the bedding is sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered Flea and Tick Control products before allowing them to enter treated area.

**STORAGE AND DISPOSAL**

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.
