## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

**CAUTION:** May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact, immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid. Do not allow children or pets in treated areas until the spray has dried. Do not use this product in food areas of food handling establishments or other areas where food is prepared or processed.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food or food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying.

### Physical Hazards

**FLAMMABLE.** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

### Statement of Practical Treatment

**IF IN EYES:** Flush with plenty of water. Get medical attention, if irritation persists.

**IF ON SKIN OR CLOTHING:** Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists. Wash clothes before reuse.

**IF INHALED:** Remove to fresh air if effects occur, and call a Physician.

**IF SWALLOWED:** Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Call a Physician.

**NOTE TO PHYSICIAN:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

**KILLS ADULT FLEAS UP TO 35 DAYS**

**KILLS TICKS UP TO 14 DAYS**

**STAINLESS**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General: Use as a spot treatment to residually control cockroaches, waterbugs, silverfish, ticks, adult fleas and larvae, and other insects listed below. Apply this product to localized areas where pests are found or may occur. Spray surfaces until wet.

Spot Treatment: TO KILL ANTS, COCKROACHES, CRICKETS, SILVERFISH, SOWBUGS, SPIDERS AND EARWIGS: Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. Directly contact as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

TO KILL BROWN DOG TICKS, ADULT FLEAS AND LARVAE: Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as necessary. Fresh bedding should be placed in animal quarters after spray has dried. Do not spray animals. Animals should be treated with a registered product to kill fleas and ticks before reentering treated areas.

TO KILL CARPET BEETLES AND DERMESTIDS: Spray along baseboards, edges of carpeting, under carpets and rugs, under furniture, in closets, on shelving, and in other places of harborage. Repeat as necessary.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

**APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS IS NOT PERMITTED.**

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. Nonfood areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

FOR USE IN USDA ESTABLISHMENTS: For use in the inedible product areas as a residual pesticide. This product must be used in a manner that precludes entry into edible product areas through open windows, ventilating systems, etc.
