Mr. Barry Santerre
Unicorn Laboratories
1000 118th Avenue North
St. Petersburg, FL 33716

Dear Mr. Santerre:

Subject: Update Directions for Use
Unicorn Ear Miticide III
EPA Registration No. 28293-212
Your Application Dated October 20, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

- 1. Add the following under the heading Diagnosis of Ear Mites:

Ear mites normally cause a dry, dark, brown, waxy, exudate with crusts in the ears of dogs and cats. The mites are easily observed by placing some of the ear exudate on a dark surface and watching carefully for white specks walking away. Do not injure the delicate tissue of the ear. Inflamed, watery, or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

- 2. Under Precautionary Statements add:

For animals, discontinue use and consult veterinarian if irritation develops.

- 3. Under Storage and Disposal add the following:

Storage: Store in a cool area away from heat or open flame.

The remaining information should follow the heading STORAGE.

PRECAUTIONARY STATEMENTS

Hazards to Humans

CAUTION: Harmful if swallowed. Avoid contact with eyes. Do not contaminate food or feedstuffs with this concentrate or dip.

Hazards to Domestic Animals

Do not treat kittens or puppies less than four weeks of age. Avoid contact of material with eyes and mouth of animal.

Statement of Practical Treatment

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For control of ticks, fleas and lice on dogs and cats, dilute 4 ounces of concentrate with 1 gallon of water. Dip animal into solution, making sure hair is thoroughly wet to the skin.

Do not rinse. Towel dry. Repeat as necessary.

For control of ear mites: While holding pet firmly, fill each ear canal half full of solution and massage base of ear to insure that insecticidal action penetrates ear wax. Repeat treatment every other day until condition is relieved. Improvement is usually noted after two applications.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap in several layers of newspaper and discard in trash.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
