

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

28293-305

Date of Issuance:

JUL 15 1999

Term of Issuance: Unconditional

Name of Pesticide Product:

Martin's Beef Cattle Dust

NOTICE OF PESTICIDE:

Registration

☒ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Unicorn Laboratories
12385 Automobile Blvd.
Clearwater, FL 33762

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Documents, EPA has reregistered the product listed above. This action is taken under the authority of section 4 (g) (2) (c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Registration under this section does not eliminate the need for control reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product. With regards to labeling, you must make the labeling changes listed below:

- 1) Please revise your "Statement of Practical Treatment" to read the following:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. (*Please note, since your product is Tox category IV for inhalation, your "IF INHALED" statement is optional)

Signature of Approving Official:

Mary Ann Keigwin
for George T. LaRocca

Date:

JUL 15 1999

Please make sure your "Note to Physician" contains all of the following information:

- Technical information on symptomatology;
- Use of supportive treatments to maintain life functions;
- Medicine that will counteract the specific physiological effects of the pesticide;
- Company telephone number to specific medical personnel who can provide specialized medical advice.

- 2) Please revise your "Hazards to Humans" heading to read "Hazards to Humans and Domestic Animals". It should read the following:

CAUTION

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequent contact may cause allergic reaction in some individuals.

Personal Protective Equipment (PPE)

Handlers must wear:

- Long sleeved shirt and pants
- Shoes and socks
- Chemical resistant gloves

(Note: please remove your "protective clothing" paragraph, presently located directly after your "Statement of Practical Treatment" since the appropriate place is with your "Hazards to Humans and Domestic Animals" statement).

USER SAFETY REQUIREMENTS

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Wash thoroughly with soap and water after handling. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

- 3) Under your "Directions for Use", please add the subheading "Application Restrictions" and the following language:

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not contaminate water, food or feed by storage or disposal.

- 4) Under "Hand Dusting", please delete the statement "Repeat as necessary" and insert the minimum allowable time period between applications. This should be based on your efficacy data.
- 5) Please note you must change your labeled product name to reflect Unicorn Laboratories before you release your product for shipment. Additionally, your EPA Reg. No. and EPA Est. No. must be corrected on the label to reflect your company number.
- 6) Enclosed is a copy of your label stamped "Accepted with Comments". Please submit two (2) copies of your final printed label for before your release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling.

If you have any questions regarding this action, please contact me at (703) 305-6100 or Tracy Keigwin of my team at (703) 305-6605.

Sincerely,

George T. LaRocca
Product Manager (13)
Insecticide Branch
Registration Division (7505C)

Enclosure

Self-treating Dust Bag - For the control of horn flies and as an aid in the control of face flies and lice, put dust in cotton cloth or double burlap bags or use prepacked weather-proof cattle dust bags. Hang in barn door exits or alleyways leading from animal buildings, salt or mineral blocks, or watering holes. Protect cloth or burlap bags from weather. Dust bags may be used free choice in loafing pens, feedlots, near watering holes or other areas where cattle gather. The free choice use aids in the control of lice.

STORAGE & DISPOSAL

Storage - Do not store in areas of excessive moisture or humidity. Store in a well ventilated area away from heat and open flame. **Pesticide Disposal** - Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal** - Completely empty can into application equipment. Then dispose of empty can in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

- CAUTION: Harmful if swallowed. Avoid breathing dust. Do not get in eyes, on skin, or on clothing. Keep away from food, feedstuffs, and domestic water supplies. Wash thoroughly after handling. This product may cause skin sensitization reactions in certain individuals.

STATEMENT OF PRACTICAL TREATMENT -

If Swallowed - Call a Physician or Poison Control Center immediately. Do not induce vomiting or give anything by mouth to an unconscious person. **If Inhaled** - Remove victim to fresh air. Apply artificial respiration if indicated. **If On Skin** - Remove contaminated clothing and wash affected areas with soap and water. **If In Eyes** - Flush eyes with plenty of water. Call a physician if irritation persists.

Protective Clothing: Wear long-sleeved shirt and pants; chemical resistant gloves; shoes and socks.

Note to Physician: Tetrachlorvinphos is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Drift and runoff may be hazardous to aquatic organisms in adjacent areas. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame. Do not store below 32 degrees Fahrenheit.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

BEEF CATTLE DUST WITH RABON® is a ready-to-use insecticide dust which can be applied by hand or through the use of self-treating dust bags. There is no withholding period from last application to slaughter and no withholding period for use of milk.

Hand Dusting - For the control of horn flies and as an aid in the control of face flies, apply approximately 2 oz. of dust by shaker can, rotary duster, or by spoon to the upper portions of the back, neck, and poll, and to the face as an aid in the control of face flies. Rub in lightly to carry the dust beneath the hair. Repeat as necessary.
