

Mr. Lee Tharrington
Unicorn Laboratories
12385 Automobile Blvd.
Clearwater, FL 33762

JAN - 8 2002

Dear Mr. Tharrington:

Subject: Amendment - add the word skin to Precautionary Statements
Unicorn 5.7% Permethrin Termite Concentrate
EPA Registration No. 28293-330
Your Submission dated December 18, 2001

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(7)(a), is acceptable provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a) Update the Storage and Disposal section in accordance with PR Notice 2001-6.
3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager 13
Insecticide Branch
Registration Division (7505C)

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF INHALED	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

Environmental Hazards

This pesticide is extremely toxic to fish. Use with care when applying to areas adjacent to any body of water. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

Physical or Chemical Hazards

Do not use or store near heat or open flame. Do not use this product in or on electrical equipment due to possibility of shock hazards.

STORAGE AND DISPOSAL

Store in a cool, dry area away from heat or open flame. Do not reuse container. Rinse thoroughly before discarding in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read entire label before use. Keep people and pets off treated areas until spray has dried.

HOW TO USE:

For spot treatment of Termites*, Ants, Carpenter ants, Carpenter bees, Carpenter beetles, and Wood boring beetles including Powder post beetles.

- SHAKE WELL BEFORE USING
- Mix 4 ½ fl.oz. with enough water to make one gallon. One gallon of mix treats 100 sq.ft.
- Apply evenly on wood surfaces with a pressure sprayer. Spray surfaces until thoroughly wet, avoiding dripping and runoff.
- Treat outside surfaces of buildings, porches, wooden decks and patios, wooden fences, window frames, doorways, foundations, eaves, garages, garbage areas and other areas where you may find these pests.
- Spray infested areas and areas likely to be infested, such as wood surfaces, voids and channels in damaged wood, spaces between wooden parts of a structure, and between wood and foundations where infestation is likely to occur, also around fenceposts, wood piles (do not use on firewood) and tree stumps.

This product will kill workers and winged reproductive forms of termites* which may be present in the treated areas at the time of treatment.

PRECAUTIONS:

Do not spray into electrical outlets or utilities. Do not permit contact with treated surfaces until spray has dried. Suitable protective clothing should be worn in confined or overhead areas to prevent exposure to eyes and skin. The use of eye protection, protective head covering, chemical resistant gloves and footwear, a long-sleeved shirt and long pants or coveralls are recommended. Ventilate confined areas, such as detached garages, under porches and decks, during treatment and immediately following treatment before areas are re-occupied. Keep people and pets off treated areas until spray has dried.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
