28293-348

Date of Issuance:
AUG 1 2001

NOTICE OF PESTICIDE:

Registration
 Reregistration

under FIFRA, as amended

Term of Issuance:
Conditional

Name of Pesticide Product:
Unicorn Ear Miticide
IV

Name and Address of Registrant (include ZIP Code):

Unicorn Laboratories
12385 Automobile Blvd.
Clearwater, FL 33762

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c) (5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

Change the registration number to read EPA Reg No. 28293-348.

Submit two copies of the finished printed label before the product is released for shipment.

If the conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6 (e).

A stamped copy of the label is enclosed for your records.

Signature of Approving Official:
Joseph M. Johnson
Marion J. Johnson, Jr.

PRECAUTIONARY STATEMENTS

Hazards to Humans

CAUTION: Harmful if swallowed. Avoid contact with eyes. Do not contaminate food or feedstuffs.

Hazards to Domestic Animals

Do not treat kittens or puppies under twelve (12) weeks of age. Avoid contact of material with eyes and mouth of animal. For animals, discontinue use and consult veterinarian if irritation develops. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals or animals on medication. Sensitivities may occur after using **ANY** pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID

If Swallowed:	<ul style="list-style-type: none"> ● Call poison control center or doctor immediately for treatment advice. ● Have person sip a glass of water if able to swallow. ● Do not induce vomiting unless told to do so by the poison control center or doctor. ● Do not given anything by mouth to an unconscious person.
If In Eyes:	<ul style="list-style-type: none"> ● Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. ● Call a poison control center or doctor for treatment advice.
If On Skin:	<ul style="list-style-type: none"> ● Take off contaminated clothing. ● Rinse skin immediately with plenty of water for 15-20 minutes. ● Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Diagnosis of Ear Mites: Ear mites normally cause a dry, dark, brown, waxy exudate with crusts in the ears of dogs, cats and rabbits. The mites are easily observed by placing some of the ear exudate on a dark surface and watching carefully for white specks walking away. Do not injure the delicate tissue of the ear. Inflamed, watery, or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

For control of ear mites: While holding pet firmly, fill each ear canal half full of solution and massage base of ear to insure that insecticidal action penetrates ear wax. Repeat treatment every other day until condition is relieved. Improvement is usually noted after two applications.

STORAGE AND DISPOSAL

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Wrap in several layers of newspaper and discard in trash.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
