PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.
PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to the eyes, lungs and mucous membranes.
STORAGE AND DISPOSAL
Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.
Approved for use in USDA-inspected meat and poultry plants.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

SANITATION OF NONPOROUS FOOD CONTACT SURFACES

such as glasses, dishes, kitchen sinks, refrigerators:

RINSE METHOD - A solution of 100 ppm available chlorine may be used in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine does not drop below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 2.5 oz. of Reliance Disinfectant Bleach with 10 gallons of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 5 oz. of this product with 10 gallons of water to provide approximately 200 ppm available chlorine by weight.

Clean equipment surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes. If solution contains less than 50 ppm available chlorine, as determined by a suitable test kit, either discard the solution or add sufficient product to reestablish a 200 ppm residual. Do not rinse equipment with water after treatment and do not soak equipment overnight.

Sanitizer used in automated systems may be used for general cleaning but may not be re-used for sanitizing purposes.

SANITATION OF POROUS FOOD CONTACT SURFACES

such as cutting boards, wooden utensils:

RINSE METHOD - Prepare a sanitizing solution by thoroughly mixing 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes. Rinse equipment with water after treatment and do not soak equipment overnight.

DISINFECTION OF NONPOROUS NON-FOOD CONTACT SURFACES

such as floors, walls, garbage cans, bath tubs, toilet bowls:

RINSE METHOD - Prepare a disinfecting solution by thoroughly mixing 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean equipment surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the disinfecting solution, maintaining contact with the solution for at least 10 minutes. Do not rinse equipment with water after treatment and do not soak equipment overnight.

SANITATION OF POROUS NON-FOOD CONTACT SURFACES

such as mops, brooms, rags:

RINSE METHOD - Prepare a sanitizing solution by thoroughly mixing 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes. Do not rinse equipment with water after treatment and do not soak overnight.

SANITATION OF DIALYSIS MACHINES

Consult the guidelines for hemodialysis systems which are available from the Hepatitis Laboratories, CDC, Phoenix, Arizona 85021.

THIS PRODUCT HAS BEEN SHOWN TO BE AN EFFECTIVE DISINFECTANT, VIRUCIDE, FUNGICIDE, BACTERICIDE, PSEUDOMONOCIDE WHEN TESTED BY AOAC AND EPA TEST METHODS.

SUPC 4000147

1 oz. (2 Tbsp) into 2 gallons of water = 200 ppm chlorine
3 oz. (6 Tbsp) into 2 gallons of water = 600 ppm chlorine

DIRECTIONS FOR LAUNDRY USE

PRETREAT STAINS AND HEAVY SOILS: Stubborn stains may be soaked for 5 minutes in a solution of 1/4 cup of bleach to 1 gallon of cool sudsy water.
SORT LAUNDRY BY COLOR AND FABRIC: Separate whites from colors, light colors from dark colors. Avoid bleaching wool, silk, mohair, leather, spandex, and non-fast colors.

ADD BLEACH AND DETERGENT: This bleach may be added to the wash water before laundry is put in, or for best results dilute with a quart of water and add 5 or 6 minutes after the wash cycle has begun. Use the recommended amount of this bleach as shown.

TO HAND WASH: Combine Reliance Bleach with 2 gallons of sudsy water. Immerse for 15 minutes to overnight, wash, then rinse.

DO NOT MIX WITH AMMONIA
DO NOT MIX WITH ACIDS
