ALGAE - GO CONCENTRATE

APPLICATIONS

ALGAE-GO CONCENTRATE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using ALGAE-GO CON-CENTRATE.

For pools having just visible algae growth add an initial dose of 11 to 17 fl. oz. of ALGAE-GO CONCEN-TRATE per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fl oz. of ALGAE-GO CONCEN-TRATE per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fl. oz. of ALGAE-GO CON-CENTRATE per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of ALGAE-GO CONCENTRATE throughout the water in the pool is necessity. caximum effectiveness.

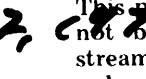

GAE-GO CONCENTRATE is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. ALGAE-GO CONCENTRATE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix ALGAE-GO CONCENTRATE with concentrated dry or liquid chlorine products.

Active Pol

Inert in

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water for at least 15 minutes. If eye irritation persists get medical attention. Avoid contamination of food.

Rinse empty container thoroughly with water and discard container.

x1776 ~ X 24776-2 manufactured by RICHARDS-EWING CHEMICAL COMPANY 1404 Avenue B Sioux Falls, So. Dak. 57104

EPA Reg. No. 29776-2

COMPOSITION

e ingredient	
ly[oxyethylene(dimethyliminio)	
ethylene(dimethyliminio)-ethylene	
dichloride]	60.00~%
ingredient	40.00 %

CAUTION

KEEP OUT OF REACH OF CHILDREN

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
