

USE DIRECTIONS:

Disinfection

Use at 2 ounces per gallon. This product will provide 500 ppm quaternaries to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

For use in hospitals, 3 ounces per gallon of water will be required for disinfection against *Pseudomonas aeruginosa*.

For best results use RC-3 as directed above with a cloth, or mop and apply to walls, floors, and similar inanimate hard surfaces.

For heavy soil, a pre-cleaning step is recommended before using RC - 3 .

Sanitization

If used for sanitization of previously cleaned food contact items, limit the level of active quaternaries to 200 ppm (4 ounces per 5 gallons of water). NO RINSE required at this level.

PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. aureus	20.5
S. typhosa	13.0

Rinse empty container thoroughly with water before discarding or returning drum to drum reconditioner.

(RC - 3)

**CLEANER
DEODORANT**

**DISINFECTANT
FUNGICIDE**

ACTIVE INGREDIENTS:

- n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chlorides1.6%
- n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides..... 1.6%
- Sodium Carbonate3.0%
- Tetrasodium ethylenediamine tetraacetate.....1.0%

INERT INGREDIENTS:.....92.8%

DANGER
KEEP OUT OF REACH OF CHILDREN

See right side panel for additional precautionary and first aid statements.

RC-3 is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors, and any inanimate hard surfaces. When used as directed, RC-3 will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops and bathroom areas which are prone to odors caused by the growth of some microorganisms. Effective against *Staphylococcus aureus* and *Salmonella choleraesuis* at 2 ounces per gallon. Also effective against pathogenic fungi, *Trichophyton interdigitale*, at 2 ounces per gallon.

At 3 ounces per gallon, a Hospital disinfecting claim against *Pseudomonas aeruginosa* can be made.

When used for sanitization of previously cleaned food processing and food contact items, limit the active quaternaries to 200 ppm. At this level, NO POTABLE WATER RINSE is required.

WARNING

Keep out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.
