

12 MAY 1992

Mr. William Ernst
Cardinal Laboratories, Incorporated
P.O. Box 2398
Irwindale, CA 91706

Dear Mr. Ernst:

Subject: Revised Labeling in Response to PR 91-7
Additional Product Names
Cardinal Tick Terminator Flea & Tick Spray for Dogs & Cats
EPA Registration Number 29909-19
Cardinal Tick Terminator Flea & Tick Shampoo for Dogs & Cats
EPA Registration Number 29909-21
Fax of May 11, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Submit one (1) copy of the respective finished, product labeling for each of the products referenced above.

1. It is understood that the pictorial displaying the young girl and the dog is not acceptable for use on the labeling for the products referenced above.
2. It is understood that the product names " Cardinal Extra Strength Flea & Tick Spray for Dogs & Cats" and "Cardinal Extra Strength 1 Flea & Tick Shampoo" are no longer acceptable.
3. The following product names are acceptable:
 - a. Product 29909-19:
 - (1) Cardinal Tick Terminator Flea & Tick Spray for Dogs & Cats
 - (2) Playmates Tick Terminator Flea & Tick Spray for Dogs & Cats

- b. Product 29909-21:
 - (1) Cardinal Tick Terminator Flea & Tick Shampoo for Dogs & Cats
 - (2) Playmates Tick Terminator Flea & Tick Shampoo for Dogs & Cats

4. Regarding product 29909-19:

- a. It is not appropriate to label this product **"FOR VETERINARY USE ONLY"** and yet provide directions for use of this product in food processing plants, etc. Delete the reference to veterinarians.
- b. It does not appear to be appropriate to induce vomiting if swallowed (refer to the **STATEMENT OF PRACTICAL TREATMENT**) for a product which contains 96% water in conjunction with pyrethrins and piperonyl butoxide.
- c. It also does not appear to be appropriate to advise the product user to "remove contaminated clothing and wash affected area with soap and water" (refer to the **STATEMENT OF PRACTICAL TREATMENT**) for a product which is applied directly to the skin of animals without a subsequent rinse. A more appropriate statement would appear to be : Remove contaminated clothing and wash skin with soap and water after using product.

5. Regarding product 29909-21:

- a. The **ACTIVE INGREDIENTS** and Inert Ingredients declarations must appear in the same type size and must be aligned to the same margin on the product label.
- b. Provide the basis for the label claim "Do not inhale", as this does not appear appropriate for a shampoo product.

Sincerely,

RFM

ACCEPTED
with COMMENTS
in EPA Letter Dated

12 MAY 1992

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

29909-21

TICK TERMINATOR
**FLEA & TICK
SHAMPOO**
FOR DOGS & CATS

An insecticidal shampoo with insecticidal ingredients that aid in building body, luster and groomability to the coats of dogs and cats. The insecticidal ingredients are highly and rapidly effective against fleas, ticks and lice when used as directed.
DIRECTIONS: It is a violation of Federal law to use this product in manner inconsistent with its label. Wet the dog or cat and apply a generous amount of shampoo working it well into the coat. For best results, the dog or cat should be left in a lathered state for four or five minutes before rinsing with warm water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Do not inhale. Keep out of eyes and avoid contact with mucous membranes. In case this product should get into the eyes, flush immediately with warm water. In case of ingestion or skin irritation, discontinue use and consult a veterinarian. Avoid contamination of food or feedstuffs.

DISPOSAL: Do not reuse empty container. Wrap container in several layers of newspaper and put in trash collection.
