

Against the active stages of flying insects use a good sprayer adjusted to deliver fine mist. For crawling and crawling insects use a coarse spray.

For infested areas thoroughly and whenever possible, keep doors and windows closed for 10 minutes after spraying.

Flying Insects: For control of flies, fruit flies, mosquitoes, gnats, and sand flies, direct the spray toward the upper portions of the room and saturate the atmosphere with the mist, using 1 to 2 ounces to each 1000 cubic feet of space.

Crawling Insects: To control roaches, silverfish, crickets, and spiders, spray infested areas thoroughly and direct the liquid toward baseboards, moldings, cabinets, shelves, doors, door and window frames, and pipes. Spray toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places. **Hitting insects with spray whenever possible.**

Against ant infestations, treat shelves, cabinets and storage areas; spray ant runs, trails, baseboards, thresholds and other places of activity, and treat nests liberally.

In controlling fleas and Brown Dog ticks in houses, direct the application toward the lower wall portions, baseboards, rugs, carpets and floors of infested areas. Animal quarters, kennels and bedding should also be sprayed.

To control bedbugs effectively, apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frame, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, doors, closets and bedroom furniture, picture frames, with particular attention to protected bedbug hiding and breeding places.

Effective, Fast Acting Insecticide.

For Use in Homes, Institutions, Restaurants

and Food Processing Plants.

Contains PYRENONE®

Kills on contact exposed or accessible stages of:

Roaches	Flies	Carpet Beetles
Silverfish	Mosquitoes	Fleas
Crickets	Skippers	Sand Flies
Spiders		Clothes Moths
Ants	Gnats	Bedbugs
	Meal Worms	Meal Moths
		Grain Mites

Mediterranean flour moths drug store beetles
cigarette beetles

ACTIVE INGREDIENTS:

Pyrethrins	0.1%
Piperonyl Butoxide, Technical*	0.8%
Petroleum Distillate	99.1%

*Equivalent to 0.84% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.16% of related compounds.

CAUTION

Keep Out Of Reach Of Children

Harmful if swallowed. Do not spray near or toward an open flame. Avoid contamination of feed and foodstuffs.

Do not remain in treated areas and ventilate the area after treatment is completed. The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.
DO NOT REUSE EMPTY CONTAINER. DESTROY IT BY PERFORATING OR CRUSHING. BURY OR DISCARD IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

For most effective control of clothes moths and carpet beetles, remove infested articles from storage, brush thoroughly and, if possible, air several hours in direct sunlight. Apply spray liberally in empty chests, closets, bureaus and storages, directing the liquid into cracks, joints and crevices. After airing, infested articles may be treated, holding the spray nozzle at least 3 feet from the fabric and applying the liquid lightly to the seams to avoid the possibility of staining. Treat both sides of rugs, carpets and pads, and all exposed and accessible surfaces of overstuffed furniture. Do not overspray if products are made of rubber or are rubber coated, to prevent expansion or swelling. Repeat treatments monthly unless the articles are stored in moth-tight containers.

Home and institutional pantries and food storages frequently become infested with granary weevils, rice weevils, confused flour beetles, rust red flour beetles, saw-toothed grain beetles, sugoumois grain moths and Mediterranean flower moths. To avoid sources of reinfestation, wormy flour, grain and cereals should be destroyed before treatment. To kill exposed accessible stages of insects named

Spray thoroughly all surfaces of shelves, bins, cupboards, cabinets, pantries, lockers and similar storages, with particular attention to cracks, niches, crevices and other hiding places. **Hitting insects with spray whenever possible.**

ACTI-CIDE is an excellent insecticide for use as a vapor, fog or mist spray in special generators.

Application should be sufficient to fill the enclosure with the fog, mist or vapor.
