Feed and Foodstuffs.

**NET WEIGHT 4 OZ.**

Distributed by:  
**HIGHCOURT SALES COMPANY**  
BOX 2609D  
PASADENA, CALIFORNIA 91105

**FOOTPRINT Cockroach Killer** will control roach population within 7 to 10 days when properly applied. It provides control of roaches as long as powder remains.

**DIRECTIONS:** Snip off nozzle. Dust powder wherever roaches might have access to a room: along baseboards, across doors and particularly in dark places under appliances and cupboards. After a week, check to see that the powder is still there and that you haven't missed any spots or cracks.

**FOOTPRINT Cockroach Killer** is most effective when used by itself. Do not use any other roach control products in areas where the powder has been applied.

Dust only in areas not accessible to children and pets.
