## LEA EGG SANITIZER

### EGG SANITIZING RINSE

**ACTIVE INGREDIENTS:** n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride 2.5%.

**INERT INGREDIENTS:** . . . . . 97.5%

#### DIRECTIONS

1. Clean eggs in usual manner in a continuous-type washer using a suitable detergent. Also follow Regulations of Egg Grading Branch of USDA for cleaning eggs.
2. Inject or proportion into rinse water 1 fluid ounce per gallon of potable water used to sanitize eggs (200 parts per million active quarternary ammonium compound). Do not rinse more than 5 dozen eggs per gallon of sanitizing solution. Follow the Regulations of Egg Grading Branch of USDA for sanitizing eggs.

ICC: Disinfectant in Bulk, o/t medicinal

## WARNING

### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause skin irritation or damage to the eyes. Avoid contact with skin and eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention. Avoid contamination of food. Do not mix with soap or anionic synthetic detergents. This product fulfills the criteria of Appendix F, The Grade "A" Pasteurized Milk Ordinance, 1965 recommendation of the United States Public Health Service in water up to 550 ppm (32 grains per gallon) of hardness when tested by the AOAC Germicidal and Detergent Sanitizers Official Method.
