This DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

This DISINFECTANT is also an excellent deodorant.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining on painted surfaces, plastics, tiles, glass and most metals.

WARNING

KEEP OUT OF REACH OF CHILDREN: Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist. DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk or raw egg white. If these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

Rinse empty container thoroughly with water and discard it.

DIRECTIONS

FOR DISINFECTION

1. Flush away surface soils with water where possible. 2. Clean with a solution of 2 ounces of DISINFECTANT per gallon of water.

3. Rinse with clear water.

4. Apply disinfecting solution so as to thoroughly wet all surfaces. For non-porous, easily cleaned areas, make a disinfecting solution of 3 ounces of DISINFECTANT per gallon of water. For porous surfaces, areas difficult to clean, or contagious disease areas, make a disinfecting solution using 4 ounces of DISINFECTANT per gallon of water. Surfaces directly contacting food must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 8 ounces per gallon of water. Spray or wet all surfaces.
