

DIRECTIONS

Dilute 1 to 3 with water or Herbicidal oil before using

General Purpose Weed Killer Concentrate

CONTAINS 1/4 pound of Urox per Gallon.
For General Weed Control on
Non-Crop Lands and Paved Areas

U.S. Patents No. 2,782, 112 and 2,801,911

CONTENTS

ACTIVE INGREDIENTS:	
Monuron Trichloroacetate	
[3- (p-chlorophenyl)-1, 1-dimethylurea trichloroacetate].	3.19
Aromatic Petroleum Derivative	91.67
INERT INGREDIENTS:	4.14
Total	100.00

*Trademark of Allied Chemical Co.

CAUTION: KEEP OUT OF REACH OF CHILDREN

(See Side Panel For Other Warnings)

**DO NOT USE, POUR, SPILL OR STORE
NEAR HEAT OR OPEN FLAME**

NET CONTENTS _____ GALLONS

CAUTION

HARMFUL IF SWALLOWED. IRRITATING TO SKIN AND EYES. Do not get on skin, in eyes or on clothing. In case of contact, immediately wash skin with plenty of water; for eyes, wash with water for at least 15 minutes and get medical attention

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product as specified on this label.

Follow directions carefully.

Do not reuse container. Destroy by perforating or crushing and bury in a safe place or return drums to drum recon-ditioner. Do not burn.

Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

NOTICE OF WARRANTY

Seller makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use which extend beyond the statements on this label

NON-CROP AREAS

For use on Non-crop land such as Right-of-Ways, Industrial Plants, Lumber Yards, Tank Farms, Storage Areas and Parking Lots for control of most annual and perennial grasses and broadleaved weeds. The effectiveness and length of time that control will last will depend on type of soil, amount of rain, and other conditions

RATE: Under ordinary conditions use at the rate of 6 to 12 gallons of diluted product per 1000 square feet (2 2/3 to 1 1/3 gal. per 100 square feet) Under conditions where the weeds are difficult to control, use at the rate of 18 gallons per 1000 square feet (1 2/3 gal. per 100 square feet)

HOW TO APPLY: Use a sprayer which will distribute the required amount evenly over the area to be treated. Use a coarse spray to reduce drift. Application may be made when top growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying

WHEN TO APPLY: Best results will be obtained if applied shortly before or at the time plant growth begins. Rain or thorough watering after application will cause the material to move to the root zone and thus speed up control

NOTE: DO NOT apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. DO NOT contaminate irrigation ditches or water used for domestic purposes. DO NOT allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals. Plant injury may result
