

**NON-CROP AREAS**

For use in killing weeds and grasses on Non-crop land such as around industrial plants, warehouses, bridges, storage yards, parking lots, fence lines, power and telephone poles, signs, recreational areas and other similar areas where there is no danger to valuable vegetation or where unproductive soil is not objectionable

**RATE:** Under ordinary conditions use one gallon of this ready-to-use weed killer per 1000 square feet, where the weeds are difficult to control, use one gallon of weed killer per 500 square feet. Repeat application if necessary

**HOW TO APPLY:** Use a sprayer which will distribute the required amount evenly over the area to be treated. Use a coarse spray to reduce drift. Application may be made when top growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying.

**WHEN TO APPLY:** Best results will be obtained if applied in spring when weeds and grasses are actively growing.

**NOTE:** DO NOT apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. DO NOT contaminate irrigation ditches or water used for domestic purposes. DO NOT allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result
