

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
AND DOMESTIC ANIMALS**

**DANGER:** Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent may not be discharged into lakes, streams, ponds or public waters without a valid discharge permit. For guidance, contact the regional office of the Environmental Protection Agency.

**PHYSICAL AND CHEMICAL HAZARDS:**

**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

**SODIUM  
HYPOCHLORITE  
SOLUTION**

**FOR SWIMMING POOL CHLORINATION**

ACTIVE INGREDIENT  
SODIUM HYPOCHLORITE 9.2%  
INERT INGREDIENTS 90.8%

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**FIRST AID:** If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do NOT give vinegar or other acids. Do NOT induce vomiting. Get prompt medical attention.

**DIRECTIONS FOR  
GENERAL CLASS**

**IT IS A VIOLATION OF FEDERAL LAW  
TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT  
WITH THE LABEL.**

**DIRECTIONS FOR SWIMMING POOL**

For a new pool or for spring start-up, superchlorinate this sodium hypochlorite solution for each 2500 gallons of water to 5 ppm available chlorine by weight.

- A. Pool Maintenance**  
Adjust pool water pH to 7.6 - 7.2 range and maintain an available chlorine residual of 0.5 ppm of this sodium hypochlorite solution for each 10 ppm available chlorine by weight. Frequency of application will depend upon pool size. Use test kit to make certain the pH and chlorine levels are maintained.

**DIRECTIONS FOR DISINFECTING  
FOR HOME WELL WATER**

Dilute this sodium hypochlorite solution in the ratio of 1 part solution to 9 parts softened water. Mix sodium hypochlorite solution thoroughly and begin feeding of solution with a hydrant throughout the distribution system, as determined by a sampling must be conducted at a frequency of 100 feet. Primary Drinking Water Regulation with a DPD chlorine test kit.

**DIRECTIONS FOR SANITIZING FOOD PROCESSING EQUIPMENT**

Clean equipment in the normal manner. Just before use, wash with this sodium hypochlorite solution containing 100 ppm available chlorine for a minimum of 10 minutes after treatment with sodium hypochlorite solution one fluid oz. (2 tablespoons) of this sodium hypochlorite solution provides approximately 200 ppm available chlorine.

**NOTE:** This product degrades with age. Use as necessary to obtain the required level of available chlorine.

**STORAGE AND DISPOSAL**

Store in original container, tightly closed, in a cool, dry place. In case of spill, flood area with water and either pump or siphon into a collection or burying in an approved container. Do not use for storage. Do not use to store food or feed by storage disposal.

**ACCEPTED**  
31183-1  
FEB 09 1981  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No.

**DIRECTIONS FOR USE  
GENERAL CLASSIFICATION**

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT WITH ITS LABELING**

**DIRECTIONS FOR SWIMMING POOL CHLORINATION**

For a new pool or for spring start-up, superchlorinate with one (1) pint (16 flu. oz.) of  
this sodium hypochlorite solution for each 2500 gallons of water. This dosage is equiv-  
alent to 5 ppm available chlorine by weight.

For Pool Maintenance:

- A) Adjust pool water pH to 7.6 - 7.2 range and maintain.
- B) Add manually or by a feeder device this sodium hypochlorite solution at a rate to  
maintain an available chlorine residual of 0.6 to 1.0 ppm. One-half pint (8 flu. oz.)  
of this sodium hypochlorite solution for each 6000 gallons of water will provide  
1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.6 to 1.0  
ppm available chlorine will depend upon temperature and number of swimmers.  
Use test kit to maintain the pH and chlorine residual in the proper range.

**DIRECTIONS FOR DISINFECTION OF POTABLE WATER  
FOR HOME WELL WATER SYSTEMS**

Dilute this sodium hypochlorite solution in the ratio of one part sodium hypochlorite  
solution to 9 parts softened water. Mix sodium hypochlorite solution and water thor-  
oughly and begin feeding of solution with a hypochlorinator (metering pump). Main-  
tain a free available chlorine residual of at least 0.2 ppm and no more than 0.6 ppm  
throughout the distribution system, as determined by a DPD chlorine test kit. Bacteri-  
ological sampling must be conducted at a frequency no less than that prescribed by  
the National Sanitation Primary Drinking Water Regulations. Check water frequently  
with a DPD chlorine test kit.

**DIRECTIONS FOR SANITIZING FOOD PROCESSING OR DAIRY EQUIPMENT**  
Clean equipment in the normal manner. Just before using, rinse all surfaces thor-  
oughly with this sodium hypochlorite solution containing 200 ppm available chlorine. Main-  
tain contact with disinfectant for a minimum of two minutes. Do not rinse with water  
after treatment with sodium hypochlorite solution. Do not soak overnight. Addition of  
one fluid oz. (2 tblsp.) of this sodium hypochlorite solution per 4 gallons of water will  
provide approximately 200 ppm available chlorine by weight.

**NOTE:** If used on water with high iron, use the test kit and increase dosage  
as necessary to obtain the required level of available chlorine.

**STORAGE AND DISPOSAL:** Store in a cool, dry area away  
from direct sunlight. In case of spill, flood area with large quantities of water. Rinse  
empty container thoroughly with water and either return to manufacturer or discard  
by placing in trash collection or burning in an approved landfill. Product or residue that  
cannot be used should be rinsed with water and disposed in a sanitary sewer. Do  
not contain, store, transport, storage, disposal or cleaning of equipment.

ACCEPTED  
31183-1  
FEB 9 1981  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No.
