## BACK PANEL

**DO NOT USE ON PUPPIES UNDER 4 WEEKS OF AGE OR KITTENS UNDER 6 WEEKS OF AGE.**  
Super Flea Flea/Tick Killer will kill and control fleas, ticks and lice on  
Dogs and Cats for up to 7 days.

It is a violation of Federal Law to use this product in a manner inconsistent  
with its labeling.

**DIRECTIONS:** Hold can upright, about two to four inches from the animal's  
hair. Point opening on side of valve in desired direction of spray. Press  
valve to release contents. Move the spray over the entire animal except for  
the head in a zig-zag motion until the coat is slightly damp. On long  
haired animals, rub your hand against the lay of the hair and spray into  
the coat directly behind your hand. If you spray the head, be certain that  
you cover the eyes with your hand and do not spray into the nose. Spray at  
the rate of 1 to 1.5 seconds per pound of body weight. Do not use more than  
once a week. Thoroughly spray the interior of the kennel or pet sleeping  
area. Also, spray bedding and replace with fresh bedding if necessary. Spray  
lightly into the air where animal odor is present.  
This aerosol may make a slight hissing sound and cause a momentary cooling  
sensation. Nervous animals may become frightened at first, but will quickly  
become accustomed to the treatment.

### **CAUTIONS: Hazards to Humans and animals.**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing  
of spray mist. Avoid contact with eyes or skin. Wash hands after handling.

**If Swallowed:** Drink 1 or 2 glasses of water and induce vomiting by touching  
finger to back of throat.

**If On Skin:** Wash with soap and warm water.

**If in Eyes:** Flush with plenty of water. Get medical attention if irritation  
persists.

**If inhaled:** Breathe fresh air for a few minutes.

### **DISPOSAL: Do not reuse empty container. Wrap and put in trash collection.**

**PHYSICAL HAZARDS: FLAMMABLE.** Contents under pressure. Do not use near  
fire, sparks or flame. Do not puncture or incinerate container. Store in a  
cool area away from open flame. Exposure to temperatures above 130 F may  
cause bursting.
