DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Hold can upright, about two to four inches from the Dog's or Cat's hair. Point opening on side of valve in desired direction of spray. Press valve to release contents. Move the spray over the entire animal except for the head in a zig-zag motion until the coat is slightly damp. On long haired animals, rub your hand against the lay of the hair and spray into the coat directly behind your hand. If you spray the head, be certain that you cover the eyes with your hand and do not spray into the nose. Spray at the rate of 1 to 1.5 seconds per pound of body weight. Do not use more than once a week.

Thoroughly spray the interior of the kennel or pet sleeping area. Also, spray bedding and replace with fresh bedding if necessary. Where animal odor is present, spray lightly into the air.

Some nervous animals may become frightened at the sound and cooling sensation of aerosols. They will quickly adapt after a few treatments.
