

# BIOTECH

**Biotech Disinfectant Surface Spray P220** is an effective disinfectant, temporary air sanitizer and deodorizer for use in hospitals, nursing homes, clinics, schools, physicians and dentists offices, industrial plants, rest rooms, homes and offices.

Kills Staph. and Strep organisms, *Pseudomonas aeruginosa*, *Escherichia coli*, *Klebsiella pneumoniae*, *Shigella flexneri*, *Proteus vulgaris*, *Salmonella choleraesuis*, *Enterobacter aerogenes*, and yeast, (*Candida albicans*) on environmental hard surfaces. Retains disinfectant effectiveness in the presence of organic matter.

Use on Toilet Seats, Wash Basins, Door Knobs, Waste Baskets, Lockers, Shower Curtains, Mattress Covers, Laundry Carts, Closets, Bowling Shoes, Athletic Equipment, Bed Frames, Diaper Pails, Telephones, Hampers, and other similar areas and equipment. Deodorizes and reduces the hazard of cross-infection from environmental surfaces.

**WARNING:** Flammable! Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. Causes eye irritation. Do not get in eyes. In case of contact with eyes, flush at once with water. If irritation persists, get medical attention. Avoid prolonged contact with skin. Avoid breathing spray mist. Avoid contamination of food.

**DIRECTIONS:** For disinfection of surfaces, hold the can upright and spray from a distance 6 to 8 inches until surface is wet.

For mold and mildew control, clean surface prior to application. Spray until surface is wet. Repeat application as necessary to maintain control when new growth appears.

For air deodorizing, hold dispenser upright. Spray into air toward the center of the room for about 4 seconds. For temporary air sanitizing, follow these spray directions in closed spaces.

**Biotech Disinfectant Surface Spray P220** kills *Trichophyton interdigitale* (Athletes Foot fungus) on inanimate hard surfaces.

\*Virucidal against Herpes Simplex (A member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A2 (The Hong Kong flu virus) on inanimate environmental surfaces

EPA Est. No. 31521-N.Y.-1
