

The excellent wetting and penetrating properties of Biotech Disinfectant Cleaner P128 provides rapid removal of all kinds of soil, is safe for all washable surfaces and leaves no surface-dulling film.

Biotech Disinfectant Cleaner P128 is a highly effective deodorizer. It emulsifies odorous organic matter and destroys odor-producing organisms.

WARNING: Harmful if swallowed. Causes skin and eye irritation. Do not get in eyes, on skin, or on clothing. Care should be taken in handling the concentrate, including proper shielding of eyes in case of splashing. Use rubber gloves for manual cleaning operations. Avoid contamination of food.

FIRST AID: In case of contact with eyes, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention. If contact with skin occurs, flush immediately with plenty of water. Remove and wash contaminated clothing.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Call a physician immediately.

Biotech

DISINFECTANT CLEANER FORMULATION P128

BROAD SPECTRUM DISINFECTION

Cleans and disinfects in a single step application.
An excellent detergent system for effective cleaning.

- DEODORIZES ■ PREVENTS MOLD AND MILDEW
- STAPHYLOCIDAL ■ PSEUDOMONACIDAL
- TUBERCULOCIDAL ■ FUNGICIDAL ■ VIRUCIDAL

BIOTECH PRODUCTS

WATERBURY, CT

DIRECTIONS: For disinfecting, and cleaning walls, floors and other similar hard surfaces, use (1) one oz. Biotech Disinfectant Cleaner P128 per gallon of water. Apply with mop, sponge or cloth. Rinsing is optional.

For heavily soiled areas, use (2) two oz. Biotech Disinfectant Cleaner P128 per gallon of water.

Treated food contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.
Rinse empty container thoroughly with water and discard it.

Biotech Disinfectant Cleaner P128 is an excellent disinfectant for use in hospitals, nursing homes, sanitariums, schools, homes, motels, hotels, terminals, offices and rest rooms. Its broad spectrum disinfectant action is proven effective against a wide range of both gram-positive and gram-negative bacteria including Staphylococci, Pseudomonas, TB bacilli, and many enteric organisms, as well as pathogenic fungi. Retains disinfectant effectiveness in the presence of organic matter and hard water (up to 325 ppm hardness as CaCO_3 (Calcium Carbonate)).

Virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses) and Influenza (flu virus), and effective against non-inanimate environmental bacteria.

TO CONTROL MOLD AND MILDEW on hard non-porous surfaces:
Use (1) one oz. Biotech Disinfectant Cleaner P128 per gallon of water. Apply this solution with a mop, sponge or cloth so that surface is thoroughly cleaned and disinfected. Do not rinse. Repeat application every seven days to prevent mold and mildew.
