DIRECTIONS FOR USE

Do not allow children to contact treated areas until surfaces are completely dry.

To control **COCKROACHES, ANTS, SPIDERS, WATERBUGS, SILVERFISH and CRICKETS.** Spray areas where these pests are found or may hide, including dark corners of rooms and closets cracks, crevices, along baseboards, and door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary.

To control **CARPET BEETLES:** Spray edges of carpeting and under carpet and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, crevices, closets and infested areas of shelving. Repeat treatment if reinfestation occurs.

To control **BROWN DOG TICKS:** Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, windows and door frames and wall coverings. Fresh bedding should be provided for animals after treatment. Do not treat animals. Repeat treatment as necessary.

As an aid in reducing the annoyance of **FLIES, MOSQUITOES, WASPS, and SMALL FLYING MOTHS:** Spray outdoor surfaces of screens, windows, door frames, light fixtures and other areas where these pests may enter. Also spray protected resting places including porch ceilings and under eaves. Repeat treatment when effectiveness diminishes.

FLEAS, CHIGGERS and ANTS: For treatment of localized infestations of these insects in outdoor areas, spray weeds and and bushy non-crop areas around the home or buildings thoroughly. Avoid spraying desirable plants. For **ANTS,** thoroughly wet hills and runways. Repeat application as infestation occurs.
