PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals.

WARNING

Causes eye and skin irritation. Do not g;t in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing (long sleeve shirt, long pants and boots) when handling. Harmful if swallowed. Avoid contamination of food and feastuffs.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge treated effluent into lakes, streams, ponds or public waters unless in accordance with a NPDES permit. For guidance contact your Regional Office of the EPA.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

AQUATREAT DNM-30 is a highly effective fungicide and bactericide for use in controlling the growth of bacteria and fungi found in industrial recirculating water cooling towers, air washers, evaportative condensers, pulp and paper mills, sugar mills, drilling fluids, and oil production systems.

STORAGE AND DISPOSAL

- PROHIBITIONS Do not contaminate water, food, or feed by storage or disposal open dumping is prohibited.
- 2. PESTICIDE DISPOSAL Pesticide, spray mixture, or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a sale place away from water supplies.
- 3. CONTAINER DISPOSAL (a) Reseal container and offer for reconditioning,

(b) Triple rinse (or equivalent) and:
Offer for recycling, reconditioning, or dispo-

- satin approved landfill, or bury in a safe place. 4. GENERAL
 - Consult federal, state or local disposal authorities for approved alternative procedures.

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Sugar Beets Flume Water Transporting and ' Washing systems.

Aquatreat DNM-30 is a highly effective microbiocide for arresting the degredation of sugar beets by microorganisms during the beet transporting and washing process.

Aquatreat DNM-30 is applied initially at the rate of 5 ppm (based on the total volume of water in the flume system) on a continuous or once per shift basis. Thereafter, 2 ppm is added to the system per 8 hour shift. The concentration may be increased to 5 ppm per shift if a decrease in pH or increase in odor is detected.

To calculate the amount of Aquatreat DNM-30 to add on a once per shift basis, determine the total volume of water in the transport and washing system. Multiply this volume in millions of gallons by the factor 4.3 to determine the amount in gallons of Aquatreat DNM-30 for the initial treatment. For the subsequent treatment of 2 ppm, multiply the volume of the transport and washing system in millions of gallons by the factor 1.7. On a continuous addition basis, add these calculated volumes over the 8 hour shift. Table II lists the amounts of Aquatreat DNM-30 to use for various volumes of system water in millions of gallons.

TA	BL	.E (

Millions of Gallons In System	Volume of Aqu 2 ppm	Jatreat DNM-30 5 ppm
0.1	11/3pls.	31/2 pts.
0.5	7 pts.	1 gal. + 1 pt.
1.0	1 gal. + 3 qts.	4 gal. + 2 µts.
5.0	8 gal. + 2 qts.	21 gal. + 2 qts.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material, when such use and/or handling is contrary to label instructions.
