

PRECAUTIONARY STATEMENTS

Hazardous to Humans and Domestic Animals.

WARNING

Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing (hats, long sleeve shirt, long pants and boots) when handling. Harmful if swallowed. Avoid contamination of food and feedstuffs.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge treated effluent into lakes, streams, ponds or public waters unless in accordance with a NPDES permit. For guidance contact your Regional Office of the Environmental Protection Agency.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

AQUATREAT DNM-30 is a highly effective fungicide and bactericide for use in controlling the growth of bacteria and fungi found in drilling fluids and oil production systems.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

2. PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

3. CONTAINER DISPOSAL

- Reseal container and offer for reconditioning, or
- Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved state and local procedures.

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

4. GENERAL

Consult federal, state or local disposal authorities for approved alternative procedures.

AQUATREAT DNM-30

ACTIVE INGREDIENTS	30%
Sodium Dimethyldithiocarbamate	15%
Nabam (Disodium Ethylene Bisdithiocarbamate)	15%
INERT INGREDIENTS	70%
TOTAL	100%

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DRILLING FLUIDS

AQUATREAT DNM-30 is a highly effective fungicide for use in controlling the growth of bacteria found in water based drilling muds. It is effective in muds containing starches, xanthan gum, and sugars. The uncontrolled growth of bacteria can cause increased odors, and degradation of the drilling fluid loss properties.

AQUATREAT DNM-30 is used at the rate of 1 pint per 100 bbl. of mud (0.02% to 0.1%) directly from the shipping container into the water. It can be put in through the mud line to the pump suction.

SECONDARY AND TERTIARY PETROLEUM RECOVERY

AQUATREAT DNM-30 is a highly effective fungicide for use in controlling the growth of fungi in secondary and tertiary petroleum recovery systems.

AQUATREAT DNM-30 can be injected into the shipping container. It should be injected into the produced water, fresh or salt water or the secondary or tertiary petroleum recovery systems for effective microorganism control. It should be diluted with water for injection.

AQUATREAT DNM-30 is used at the rate of 1 pint per 100 bbl. of water for growth inhibition of *Desulfovibrio desulfuricans* and *Pseudomonas*. It is also effective against such as *Aspergillus*, *Penicillium* and other fungi. 1 pint per 100 bbl. of water.

Seller makes no warranty, expressed or implied, concerning the use of this product other than that stated on the label. Buyer assumes all risk of injury or damage from the use of this material, when such use is contrary to label instructions.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

DRILLING FLUIDS

AQUATREAT DNM-30 is a highly effective microbicide for use in controlling the growth of fungi and bacteria found in water based drilling muds. It is especially useful in muds containing starches, xanthanate gums, and wood sugars. The uncontrolled growth of these fungi and bacteria can cause increased corrosion, undesirable odors, and degradation of the drilling mud, especially fluid loss properties.

AQUATREAT DNM-30 is used at the rate of 1 to 5 gallons per 100 bbl. of mud (0.02% to 0.1%). It can be used directly from the shipping container or pre-diluted with water. It can be put in through the mud hopper or added to the pump suction.

SECONDARY AND TERTIARY PETROLEUM RECOVERY

AQUATREAT DNM-30 is a highly effective microbicide for use in controlling the growth of fungi and bacteria found in secondary and tertiary petroleum recovery waterflood systems.

AQUATREAT DNM-30 can be injected directly from the shipping container. It should be thoroughly mixed into the produced water, fresh or salt water or commingled water or the secondary or tertiary oil recovery waterflood systems for effective microorganism control. It may also be diluted with water for injection.

AQUATREAT DNM-30 is used at the rate of 1 pint per 100 bbl. of water for growth inhibition of **Bacillus Cereus** and **Desulfovibrio desulfuricans** and 1.1 to 1.8 gallons per 100 bbl. of water for heterotrophic bacteria including **Pseudomonas**. It is also effective against many fungi such as **Aspergillus**, **Penicillium** and **Trichoderma** at the 1 pint per 100 bbl. of water.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material, when such use and/or handling is contrary to label instructions.
