EPA Reg. No. 32460-2

APPROVED
MAY 19 1975

DIRECTIONS FOR USE

With the filter pump running, Algaetabs Algaecide should be added directly to the *skimmer* baskets according to the following dosages. Continue operating the filter pump until all of the Algaetabs Algaecide is completely dissolved.

Initial Dose — Pool Opening

1 Algaetabs Algaecide tablet for each 1500 gallons of water

The *initial* dose is used when filling the pool or at the beginning of the season. If necessary, vacuum pool 24 hours after treatment to remove algae debris. If visible algae are still present or re-appear, repeat the initial dose as necessary. When the pool is free of visible algae continue with the maintenance dose.

Maintenance Dose:

1 Algaetabs Algaecide tablet weekly for each 3,000 gallons of water

The maintenance dose is used during the swimming season to replenish the algaecide content of the water. During periods of hot weather or higher bather load, use more frequent maintenance doses.

Winterizing — Pool Closing

1 Algaetabs Algaecide tablet for each 2000 gallons of water

The winterizing dose is used to prevent algae growth during the winter months

Rinse empty container thoroughly with water and discard.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.

Item 2004 EPA Est. 71 87-NJ-1 Printed in U.S.A.

When Algaetabs Algaecide is used as directed, it will kill and prevent development of a variety of common swimming pool algae.

Algaetabs Algaecide is compatible with most commonly used swimming pool chemicals. Do not mix with soap or other cleaners or pre-mix with other pool chemicals. Algaetabs Algaecide works best when added by itself directly into the skimmer baskets. Algaetabs is non-corrosive at use dilutions.

DANGER

Keep out of reach of children. Corrosive, causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Handle with rubber gloves and avoid contact or inhalation. Harmful or fatal if swallowed. Avoid all contact with food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
