Net Contents: 8 oz. (227 grams)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE when used as directed prevents and controls the growth of algae in Swimming Pools.

MIXING INSTRUCTIONS: Mix the correct dosage in a container of water. The resultant mixture may be poured into the skimmer or evenly distributed around the edge of the pool.

PRECAUTION: Do not use treated water on plants or lawns as **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE** and other pool additives could cause damage.

PREVENTIVE ALGAE TREATMENT: Apply 1 1/3 oz. of **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE** (0.8 ppm simazine) per 10,000 gals. of water that is visibly clean. Repeat every 8-10 weeks or when algae reappear.

GREEN ALGAE CONTROL: Apply 2 oz. **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE** (1.06 ppm simazine) per 10,000 gals. of water when algae growth is first visible. Seven days later, brush algae from walls, vacuum out settled algae and immediately begin preventive algae treatment.

BLACK ALGAE CONTROL: Apply 2 2/3 oz. of **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE** (1.6 ppm simazine) per 10,000 gals. of water when algae growth is first visible. For faster results, remove top of algae growth by brushing daily and vacuum out settled algae. Seven days later begin preventive algae treatment.

SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE is non-foaming, will not stain and is non-corrosive to pool filters, heaters, piping and fittings. Pool filtering systems will not reduce the effectiveness of **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE**. The use of **SWIMFREE NON-FOAMING DRY FORMULA ALGAECIDE** will not replace the need for chlorine to maintain proper pH and sanitation, but does relieve the need for excessive quantities of chlorine to combat algae.
