

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 32460-26	DATE 14 NOV 1987
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	TERM OF ISSUANCE NAME OF PESTICIDE PRODUCT SWIMFREE CHLORINATING TABLETS FOR SWIMMING POOLS - 1 INCH	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) HYDROLOGY LABORATORIES, INC. 360 Central Ave. Bohemia, NY 11716		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith. Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This registration notice is being issued in accordance with Section 3(c)(7)(A) of the FIFRA subject to the following conditions.		
(1) It is understood that you will submit and/or cite all data required for registration or re-registration of your product under Section 3(c)(5) of the FIFRA when the Agency requires all registrants of similar products to submit such data.		
(2) You will submit two copies of your finished printed labels complying with the requirements or revisions specified in the attachment to this registration notice. These labels must be submitted to the Agency before the product is released for shipment as required by PR Notice 82-2, of June 18, 1982.		
A stamped copy of the draft label is enclosed for your records. Your release of the product for shipment constitutes acceptance of these conditions. If the conditions are not complied with, the registration will be subject to cancellation in accordance with Section 6(e) of the FIFRA.		
Sincerely yours,  Scott Kemper Acting Product Manager - 32 Disinfectants Branch Registration Division (TS-767)

ATTACHMENT TO EPA REGISTRATION NOTICE

EPA Registration No. 32460-26 Date Issued

14 NOV 1987

Company Name HYDROLOGY LABORATORIES, INC.

Product Name SWIMFREE CHLORINATING TABLETS FOR SWIMMING

POOLS -1 INCH

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Reg. No. 32460-26. This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.
2. Two copies of the finished printed labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.
3. The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. If the label does not satisfy these requirements it will be rejected.

4. Delete "or bury in a safe place."

Directions for Pool Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. SwimFree concentrated pool chlorinating small 1" Tablets are designed to dissolve slowly (1-3 days) providing a steady source of available chlorine to control growth of algae and kill many harmful bacteria.

For Best Results: Use a floating dispenser or place Tablets in the skimmer. Do not permit tablets to contact plastic pool linings or metal objects. Do not throw tablets directly into pool. Run pump and filter until tablets are dissolved.

Startup:

1. Adjust pH to 7.2-7.4 with pH Plus or pH Minus chemicals.
2. Superchlorinate to obtain a 1-3 ppm chlorine residual. Follow label directions.
3. The next day stabilize your pool using SwimFree Stabilizer and Conditioner. Follow label directions.

Routine Care: Add four (1/2 ounce) Tablets for each 10,000 gallons of water every other day, or as needed, to maintain chlorine residual at 1-3 ppm. Run pump and filter until tablets are dissolved. Maintain pH between 7.2-7.6, total alkalinity 90-125 ppm and calcium hardness above 200 ppm. Test with a reliable test kit. Make necessary adjustments with the appropriate pool care product(s). Superchlorinate weekly with SwimFree Super Chlorinator and Shock Treatment to burn out organic material and to keep water sparkling clear.

In Case of: Algae, colored water, unpleasant odors, burning eyes, excess bather load, heavy rains and winds, or high temperatures, shock treat your pool using SwimFree Super Chlorinator and Shock Treatment. Follow label directions. An alternate method is to add 28 Tablets in the skimmer for each 10,000 gallons of water. Run pump and filter until tablets are dissolved. If algae are visible scrub pool surfaces and vacuum. Repeat treatment the following day if necessary. Do not enter pool until chlorine residual is 1-3 ppm.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May irritate. Do not get in eyes, on skin, or on clothing. Do not handle without goggles or face shield and use rubber gloves and only thorough washing when handling. Irritating to nose and throat. Avoid breathing dust and wash contaminated clothing before reuse.

FIRST AID: (PRACTICAL TREATMENT) If swallowed: Feed large amount of water and induce vomiting. Call a physician immediately. If on skin: Flush with cold water for at least 15 minutes. If in eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention. If inhaled: Remove to fresh air. Get immediate medical attention.

CHEMICAL HAZARDS: DANGER: Strong oxidizing agent. Use only in water. Mix only into water. Contamination with moisture, dirt, or other chemicals (including other pool chemicals) or any other foreign material may cause a chemical reaction with generation of heat, liberation of hazardous gases, or generation of fire and explosion. Avoid any contact with open flame, such as a lighted cigarette. Do not use this product in any area that has been used with any inorganic or unstabilized chlorinated hydrocarbons (hypochlorite). Such use may cause fire or explosion. Do not contact plastic pool linings or metal objects. Do not throw into pool.

ENVIRONMENTAL HAZARD: This product is toxic to fish. Do not use in ponds, or streams by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container. Store in a cool, dry, well-ventilated area away from heat and fire. Reuse empty container. Rinse empty container thoroughly with water before discarding. Securely wrap container in seal and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition, isolate container in open and well-ventilated area with large volumes of water. Dispose of contaminated material in a landfill area or ~~bury in a safe place~~.
