Puzzle 12/4

SWIMFREE POOL SHOCK

Completely Soluble

Highly Effective

Easy-to Use

No Cyanurates or Calcium

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

DEC 07 1987

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

32460-29

## Active Ingredients:

\*Lithium hypochlorite.....29%

Inert Ingredients: .....71%

\*Contains 35% available chlorine

100%

KEEP OUT OF REACH OF CHILDREN

DANGER

(See practical treatment (first aid)  
and other precautions on back side panel)

EPA REG. NO. 32460-1

EPA Est. No. 32460-NY-1

## SOLD BY:

HYDROLOGY LABORATORIES, INC.  
Bohemia, N.Y. 11716

Net weight: 1 lb. (453.6 g.)

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. May cause skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

**PRACTICAL TREATMENT (First Aid):** If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin: Brush off excess chemical and flush with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

## STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, ~~or bury in a safe place.~~

*delete*

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Chlorine added to swimming pools combine with many contaminants found in the water. Among these are nitrogenous products that are added by bathers in the form of perspiration, mucous and urine. These additional products contaminate the water and have to be removed periodically to yield a significant improvement in water clarity. SWIMFREE Pool Shock added as follows will do the job.

Adjust the pool water to a pH of 7.2-7.6. Add 1 lb (one bag) of SWIMFREE Pool Shock per 6,000 gallons of water every two weeks. This addition should be made by broadcasting the product evenly over the pool surface in the early evening with the filter/pump running. The pool should not be used for a minimum of 12 hours. Before use, test for the chlorine residual. Do not swim until the residual is 3.0 ppm or less.

This product may also be applied as above when algae is first visible. Repeat treatment, as necessary, to control algae.
