

**DIRECTIONS FOR USE**

Initial Dose: 1 gallon BIO-ALGAECIDE to 50,000 gallons of water

Maintenance Dose: 1 quart BIO-ALGAECIDE to 50,000 gallons of water

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of BIO-ALGAECIDE for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of BIO-ALGAECIDE to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

# BIO-ALGAECIDE

## CONCENTRATED SWIMMING POOL ALGAECIDE

KEEPS POOL WATER CLEAR AND FREE OF VISIBLE ALGAE

CONTROLS ALGAE SLIMES

**ACTIVE INGREDIENTS:**

- n-Alkyl (60%C<sub>14</sub>, 30%C<sub>16</sub>, 5%C<sub>12</sub>, 5%C<sub>18</sub>)
- dimethyl benzyl ammonium chlorides . . . . . 5%
- n-Alkyl (68%C<sub>12</sub>, 32%C<sub>14</sub>)
- dimethyl ethylbenzyl ammonium chlorides . . . . . 5%

**INERT INGREDIENTS:** . . . . . 90%

E.P.A. Registration No. 32690-7

### DANGER

KEEP OUT OF REACH OF CHILDREN

See First Aid Statement and other precautions on side panel. Container Disposal: When empty, rinse container thoroughly with water and destroy it by crushing or burying in a safe place.

**FISH AND OR WILDLIFE PRECAUTIONS:**

Do not apply BIO-ALGAECIDE to streams, rivers, ponds, or other bodies of water. Do not apply BIO-ALGAECIDE to streams, ponds, or other bodies of water. Do not apply BIO-ALGAECIDE to streams, ponds, or other bodies of water.

When BIO-ALGAECIDE is used in the pool water, it will kill and prevent development of algae, cyanobacteria (blue-green algae), Phormidium, and other swimming pool algae.

BIO-ALGAECIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners or premixed with other water-treating chemicals. BIO-ALGAECIDE works best when added by itself directly to pool water. BIO-ALGAECIDE at use dilution is non-corrosive to inanimate surfaces.

### DANGER

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**FIRST AID**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
