

DIRECTIONS FOR USE
DISINFECTION

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 ounces per gallon.

For best results, use Bio-C & D Concentrate with a cloth or mop and apply to walls, floors, table tops and counters.

SANITIZATION

For light duty cleaning, sanitizing and deodorizing, use 2 ounces per gallon. If used for sanitization of previously cleaned food contact items, limit the level to 200 ppm of quaternaries (8 ounces per 5 gallons of water). All treated food contact surfaces must be rinsed with water of drinking quality prior to reuse.

No rinse required when recommended dilution is applied to walls and floors. For extra heavy industrial cleaning and sanitizing, use a second application.

Do not mix with soap or anionic solutions.

Bio-C & D Concentrate is non-corrosive in use—dilutions on inanimate hard surfaces.

Bio-C & D Concentrate is a heavy duty cleaner and disinfectant designed for general purpose use where heavy duty cleaning and sanitizing is of prime importance. When used as directed, Bio - C & D Concentrate will remove most household dirt and grime in a single, simple application. When used for industrial cleaning, follow the use directions shown on this panel.

Not recommended for *Pseudomonas aeruginosa*.

For sanitization of previously cleaned food processing equipment or food contact items, limit the active quaternaries to 200 ppm (8 ounces per 5 gallons of water). All treated food contact surfaces must be rinsed with water of drinking quality prior to reuse.
