

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. LAKE DISINFECTANT CLEANER is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

LAKE DISINFECTANT CLEANER is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 800 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of LAKE DISINFECTANT CLEANER per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

Enterobacter aerogenes
Proteus mirabilis
Streptococcus pyogenes
Klebsiella pneumoniae
Salmonella schottmuelleri
