GARDEN WEED PREVENTER

2.5-G DACTHAL GRANULES

10 POUNDS TREATS 1,000 SQ. FT.
OF LAWN, FLOWER OR VEGETABLE GARDENS

Prevents New Weed Growth in Flower and Vegetable Gardens in Lawns and Ornamental Turf
FOR GARDENS . . . . . EASY TO USE
SPRINKLE ON TOP OF SOIL AFTER PLANTING
USE FOR ALMOST ANY VEGETABLE CROP (SEE LIST)

ACTIVE INGREDIENT	
DCPA* (dimethyl tetrachloroterephthalate)	2.5%
INERT INGREDIENTS	97.5%
Total	100.0%

*Dacthal is a Registered Trademark of Fermenta Crop Protection Co

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENTS OF PRACTICAL TREATMENTS

IF SWALLOWED Call a physician or Poison Control Center immediately Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger Do not induce vomiting or give anything by mouth to an unconscious or convulsing person IF IN EYES Flush eyes with plenty of water Call a physician if irritation persists IF ON SKIN Wash affected area with soap and water

SEE SIDE/BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

EPA REG NO 32802-14 EPA EST NO 32802-MI-1 MO-1

NET WEIGHT ___10___ POUNDS (4.53Kg)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION Harmful if swallowed Causes moderate eye irritation Avoid contact with eyes or clothing Wash thoroughly with soap and water after handling Do not contaminate feed or foodstuffs Do not feed treated forage to livestock or graze treated areas

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands (swamps bogs marshes or potholes) Do not contaminate water when disposing of equipment washwaters

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling

STORAGE AND DISPOSAL

Do not contaminate water feed or feed by storage or disposal STORAGE Store product in original container in a cool, dry, locked place out of reach of children PESTICIDE DISPOSAL Wastes resulting from the use of this product may be disposed of on site or at an approved wastes disposal facility CONTAINER DISPOSAL Completely empty bag into application equipment Then dispose of empty bag in a sanitary landfill or by incineration or if allowed by State and local authorities, by burning If burned stay out of smoke Household-Do not reuse empty bag Wrap and put in trash

USE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING Wear long-sleeved shirt and long-legged pants and chemical resistant gloves IMPORTANT! If the pesticide comes in contact with skin wash off with soap and water Always wash hands face and arms with soap and water before smoking eating, drinking or toileting AFTER USE Before removing gloves wash them with soap and water Take off all work clothes and shoes Shower using soap and water Do not reuse contaminated clothing Clothing worn during use must be laundered separately from household articles

WEEDS CONTROLLED WITH THIS PRODUCT The following weeds (annuals) are controlled by the product when used at the rate of 10 pounds per 1,000 Sq Ft Smooth and Large Crabgrass Green and Yellow Foxtail Lovegrass Pigweed Carpetgrass Common Chickweed Lambsquarter Purslane Florida Pusley Barnyardgrass Ground Cherry Dodder Brome-top Pericum Goosegrass, Johnsongrass from Seed RedRoot Pigweed Hogweed Spurge Spotted Spurge Prostrate Spurge and many other annual grasses and broadleaf weeds Use at the rate of 13 1/2 pounds per 1,000 Sq Ft for control of Annual Bluegrass (Poa Annua) in sod or turf

WHEN TO APPLY

This product WILL NOT CONTROL WEEDS THAT ARE PRESENT at the time of application It is for PRE-EMERGENCE WEED CONTROL ONLY and must be applied to a uniform weed-free soil surface or turf within two to three days maximum following cultivation or at least 2 to 3 weeks prior to the germination of weed seeds in the spring summer or fall Complete all cultural practices which disturb the soil such as verticutting before making application Do not treat dry hard ground A second treatment made within 60 days of the first in late spring early summer or fall will give year around weed free plantings in the listed Ornamental Shrub Flower or vegetable beds or in the Lawn The soil should be moist at treatment time

For Annual Bluegrass (Poa Annua) control in Northern areas apply Aug 1st to Sept 15th in Southern areas apply Sept 15th to Dec 1st

Treat annual flowers or vegetables after transplanting or after thinning of direct seeding Do not treat garden soil immediately after seeding Petunias Snapdragons or other similar flower or vegetable seeds since damage may occur to these seedlings as they emerge

LAWNS AND ORNAMENTAL TURF

In Northern lawns apply 10 lbs per 1,000 Sq Ft in March through April prior to weed seed germination Wait 60 days to sow grass seed Use a good Lawn Spreader at the following spreader settings SCOTT 8 - CYCLONE 6 Treat established lawns only or those receiving fall planted grass seed For control of late germinating weed seeds and for season long weed control a second application may be made 60 days after the first using 5 lbs /1,000 Sq Ft

HOW TO APPLY

Spread the Granules over the lawn or soil surface using a suitable spreader calibrated to deliver 1 lb of granules per 100 Sq Ft of soil surface It can also be applied by the Shaker Can Method The ideal way to do this is to measure off the area to be treated into small plots therefore 100 Sq Ft (10 Ft X 10 Ft) and evenly sprinkle the prescribed amount of granules over the area using the criss-cross method of applying one-half the amount in one direction and one-half the amount in the other direction See Spreader Settings under LAWNS AND ORNAMENTAL TURF

FOR USE AROUND ORNAMENTALS, FLOWERS, GROUND COVERS, SHRUBS

Refer to WHEN TO APPLY Use 1 lb per 100 Sq Ft of soil surface

STRAWBERRIES & VEGETABLES

STRAWBERRIES BROCCOLI BRUSSELS SPROUTS CAULIFLOWER CABBAGE BEANS CUCUMBERS SQUASH COLLARDS KALE MUSTARD GREENS TURNIPS GARLIC ONIONS POTATOES SWEET POTATOES YAMS TOMATOES EGGPLANT PEPPERS

STRAWBERRIES Established plantings

Treat in the early fall and in the early spring at the rate of 3.4 to 1 lb per 100 Sq Ft (7 to 10 lbs per 1,000 Sq Ft) For new plantings apply at the same rate at the time of transplanting Do not apply after first blossoms appear through harvest The application may be made directly over plants with out injury to plants

VEGETABLES Observe when to Apply

Use 1 lb per 100 Sq Ft of soil surface (10 lbs per 1,000 Sq Ft equivalent)

BROCCOLI, BRUSSELS SPROUTS, CAULIFLOWER, CABBAGE Apply at seeding or transplanting time Granules can be applied directly over plants

BEANS (Dry or Snap), SOUTHERN PEAS (Blackeyed), SOYBEANS Apply at time of seeding

SEED CUCUMBERS, SQUASH, MELONS (Cantaloupe, Watermelon, Honeydew) Apply when plants have 4 to 5 true leaves

COLLARDS, KALE, MUSTARD GREEN, TURNIPS Apply at time of seeding

GARLIC and ONIONS Apply at time of seeding or transplanting A "layby" application may be made 14 weeks after bulb or top for continued weed control in onions

POTATOES (Whole or Cut pieces) Apply at planting time Drag-off or Layby If top of beds are to be dragged off mulch application after Drag-off The Layby application can be made up to 9 weeks after planting If weeds have emerged by Layby the crop should be cultivated prior to application The initial sprinkler irrigation should not exceed one inch This product is not recommended for use on potatoes in California

SWEET POTATOES & YAMS Apply at transplanting time or Layby Apply directly over transplants without injury Layby can be made 6 weeks after transplanting

TOMATOES, EGGPLANT, PEPPERS Apply to soil during a period of 4 to 6 weeks after transplanting Plants should be healthy and well established

REPLANTING Replanting crops other than those included on the label on Dacthal treated soil within 8 months of application may result in crop injury If replanting is required because of early crop failure the planting of onions seeded melons potatoes tomatoes, eggplants or peppers at this time may result in crop injury However all crops on this label may be planted following the harvest of a Dacthal treated crop

To improve weed control if there has been no rain within 3 to 4 days after application irrigate the area with 1/2 to 1 inch of water

DO NOT USE THIS PRODUCT ON THE FOLLOWING PLANTS

Bugleweed Button Fern Carnation Geum Germander Mesembryanthemum Parsley Phlox Sweet William Tearthers Not recommended for use on Putting Greens nor bentgrass when mowed at Putting Green height Do not use on Dichondra

SPECIAL PRECAUTIONS This product will not harm crops for which its use is recommended however conditions such as high soil temperatures seedling diseases cold weather deep planting excessive moisture or drought may injure or weaken crops normally tolerant to Dacthal thereby increasing the possibility of herbicide damage Under any of these conditions one or more of the following may result delayed crop development reduced yields or reduced quality

NOTICE Buyer and user assumes all risk and liability of use storage and/or handling of the material not in accordance with the terms of this label.
