Dear Mr. McLane:

Subject: Addition of Fire Ants, Revised Watering Directions
Dursban® 1.14 Plus 30-5-10 Lawn Fertilizer
EPA Registration No. 32802-21
Your Submission Dated November 9, 1994

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), sec. 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit two copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch
Registration Division (7505C)

DURSBAN® 1.14 PLUS 30-5-10 LAWN FERTILIZER

Lawn and Turf Insect Control Kills: Sod Webworms, White Grubs, Ants, Imported Fire Ants, European Crane Fly Larvae (Leather jackets), Fleas, Brown Dog Ticks, Crickets, Chinch Bugs, Cutworms, Earwigs, Sowbugs, and Armyworms, in Home Lawns and other Ornamental Turf.

Not for use on turf grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

ACTIVE INGREDIENT:
CHLORPYRIFOS: [O,O-diethyl O-(3,5,6 trichloro-2-pyridyl) phosphorothioate] 1.14%
INERT INGREDIENTS: 98.86%
Total 100.00%
DURSBAN® is a Reg. Trademark of The DowElanco

SURFACE FEEDING INSECTS
SOD WEBWORMS, CHINCH BUGS, ANTS, FLEAS, CRICKETS, CUTWORMS, BROWN DOG TICKS, SOWBUGS, EARWIGS
For control of Chinch Bugs, Sod Webworms, Fleas, Ants, Armyworms, Brown Dog Ticks, Crickets, Cutworms, Earwigs, and Sowbugs apply 50 pounds to uniformly cover 25,000 Sq. Ft. of turf (equivalent to 2 lbs. per 1,000 sq.ft.) Refer to Spreader Settings. Apply in the spring when insects first appear troublesome and repeat as needed for control. Additional treatments at 30 day intervals may be needed for continued control of Sod Webworms. The watering-in of the insecticide granules is not required to obtain control of surface insects.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**
STATEMENT OF PRACTICAL TREATMENT
IF SWALLOWED: Call a physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.
IF IN EYES: Flush eyes with plenty of water. Get medical attention.
IF ON SKIN: Remove contaminated clothing and wash affected area with soap and water. Wash clothing before reuse.
IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated. Get medical attention immediately.
NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.
SEE SIDE/BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

SOIL INSECTS
CONTROL of WHITE GRUBS and other ROOT FEEDING INSECTS
For Control of Root Feeding Insects such as Billbug Larvae, and the "White Grub" larvae of Japanese Beetle, European Chafer, Southern Chafer and Hyperodes weevil apply 50 lbs. to treat 12,500 sq. ft. of lawn (equivalent to 4 lbs. per 1,000 sq. ft.). Apply the granules uniformly over the area and follow the application with a thorough watering to wash the insecticide into the soil where the insects are feeding.
EUROPEAN CRANE FLY LARVAE
(Leather jackets)
For specific control of the Crane Fly Larvae feeding in western states turfgrass soil apply 10 lbs. to cover 3,335 sq. ft. The larvae will also be controlled simultaneously when an application rate for Grubs (10 lbs / 2,500 sq. ft.) has been made. Consult your Agricultural Extension Service for the best time to treat in your area. Keep children and pets off treated area until granules have been washed into soil and the grass is dry.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: May be harmful if swallowed. Do not take internally. Do not breathe dust. Avoid contact with eyes, skin or clothing. Wash contaminated clothing before reuse. Wash thoroughly after handling and before eating or smoking. When watering-in of granules is directed keep children and pets off treated areas until material is washed into the soil and the grass is dry. Do not contaminate feed or foodstuffs.
ENVIRONMENTAL HAZARDS
Do not contaminate water when disposing of equipment washwaters. This product is toxic to fish, birds, and wildlife. Do not apply directly to water. Do not apply where runoff is likely to occur. Use only as directed.

FIRE ANT CONTROL
For the control of Imported Fire Ants by individual ant mound treatment apply 4 level tablespoonfuls (2/3 ounce) of granules evenly in a circle around the outer edges (1 to 2 feet from center) of mounds measuring from 3 to 12 inches in diameter. Finish the treatment then by applying 2 level tablespoonfuls (1/3 ounce) sprinkled over the center of the mound. Best results will be obtained if mound is not disturbed after treatment thus allowing ants to come and go and to be exposed to the insecticide treated area. Apply the granules when Imported Fire Ants have become a nuisance and repeat as needed but not more than once a month.

DIRECTIONS FOR USE
In violation of Federal law to use this product in a manner inconsistent with its labeling.

WHEN TO APPLY
Treat the turf when the grubs are young and actively feeding near the soil surface in mid-July and early August.
For the HYPERODES (Turfgrass) WEEVIL apply in Mid-April and again in Mid-May at the same rate of 50 lbs. per 12,500 sq. ft. Consult your Agricultural Extension Service for the best time to treat in your area. Keep children and pets off treated areas until insecticide has been washed into the soil and grass is dry.
POOR INSECT CONTROL WILL RESULT IF YOUR SPREADER APPLIES LESS GRANULES THAN RECOMMENDED. MAKE SURE TO APPLY THE TOTAL POUNDS PER SQUARE FEET AS SHOWN IN THE FOLLOWING CHART

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store product in its original container in a cool, dry, locked place out of reach of children.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke.
