**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

See back panel for additional precautionary statements and first aid information

# CRABGRASS PREVENTER PLUS WITH 0.06% DIMENSION®

A selective herbicide that provides control of Listed annual grasses and broadleaf weeds in established lawns & ornamental turf. Contains a complete lawn food.

Read the entire "Directions for Use" and "Warning Statement" before using this product. If terms are not acceptable, return the unopened product container at once to the seller.

## KEEP OUT OF REACH OF CHILDREN PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Causes eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp. Use with care when applying to turf areas adjacent to any body of water. Drift or runoff may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

### First Aid

If in eyes	<ul style="list-style-type: none"> <li>Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>
If inhaled	<ul style="list-style-type: none"> <li>Move person to fresh air.</li> <li>If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li> <li>Call a poison control center or doctor for further treatment advice.</li> </ul>
If on skin or clothing	<ul style="list-style-type: none"> <li>Take off contaminated clothing.</li> <li>Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>
If swallowed	<ul style="list-style-type: none"> <li>Call a poison control center or physician immediately for treatment advice.</li> <li>Have person sip a glass of water if able to swallow.</li> <li>Do not induce vomiting unless told to do so by the poison control center or physician.</li> <li>Do not give anything by mouth to an unconscious person.</li> </ul>

### Hot line number:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Telecommunications Network at 1-800-659-7378.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

**GENERAL INFORMATION:** This product controls crabgrass and other annual grasses and broadleaf weeds, and also contains fertilizer for proper turf growth in established lawns. It can be applied 2 to 4 weeks later than other crabgrass preventers, and provides up to 3 to 5 months control of crabgrass and other weed grasses and broadleaf weeds in home lawns. It can be applied according to the following turfgrasses:

**Cool season grasses:** creeping bentgrass, Kentucky bluegrass, fine fescue, tall fescue, perennial ryegrass;  
**Warm season grasses:** bahiagrass, bermudagrass, buffalograss, carpetgrass, centipedegrass, kikuyugrass, St. Augustinegrass, zoysiagrass.

Apply only to lawns that are well established. Use of this product on lawns that are not well established, or weakened by weather, pests or mechanical stress, may increase the chance for turf injury. This product will not harm nearby established ornamentals when used according to label directions.

**When to apply:** This product can be applied 2 to 4 weeks later than other crabgrass preventers, because Dimension® herbicide in this product provides preventive (pre-emergence) control when applied on lawns prior to germination of the weed seeds. It also provides post-emergence control of crabgrass when applied 2 to 4 weeks after crabgrass germination. Post-emergence control is limited to crabgrass only. Application of this product later than 4 weeks after crabgrass germination will result in reduced control of crabgrass. For control of the weed grasses and broadleaf weeds listed on this label (other than crabgrass), it must be applied as a preventative treatment before the weed seeds germinate. ONLY crabgrass can be controlled with delayed application after germination.

**APPLICATION DIRECTIONS:** This product can be applied in the spring, before weeds become established in the lawn, or in the fall for pre-emergence crabgrass control through the early part of the next spring. Fall applications should be followed by a second (sequential) application the following spring to provide season-long control. Do not apply more than 8.6 pounds per 1000 square feet per year. Do not make more than

**LENGTH OF WEED CONTROL:** The length of time of weed control is directly related to the amount applied to the lawn. Use the application rates in Table 1 to provide 2 to 3 months of weed control. Use the application rates in Table 2 for 3 to 5 months of weed control. The actual length of weed control will vary depending on weather, weed pressure, and your location in the north or south region.

TABLE 1: RATES FOR 2 TO 3 MONTHS OF CRABGRASS CONTROL\*

Region	Preemergence	Post emergence
North	3.6 pounds per 1000 square feet	7.2 pounds per 1000 square feet
South	7.2 pounds per 1000 square feet	8.6 pounds per 1000 square feet

TABLE 2: RATES FOR 3 TO 5 MONTHS OF CRABGRASS CONTROL\*

Region	Preemergence	Post emergence
North	4.8 pounds per 1000 square feet	9.6 pounds per 1000 square feet
South	9.6 pounds per 1000 square feet	9.6 pounds per 1000 square feet

\*Southern states include AL, AR, AZ, CA, FL, GA, HI, LA, MS, NC, NM, NV, OK, SC, TN, TX, VA, and southern areas of IL, IN and OH. All other states included as North Region.

**USE PRECAUTIONS:** DO NOT apply more than 9.6 pounds of this product per 1000 square feet per year. DO NOT apply to flowers, vegetables or fruit trees. DO NOT use clippings from treated turf for mulching around flowers, vegetables or fruit trees. DO NOT apply this product to lawns. Keep people and pets off treated areas until dust has settled. Reseeding, overseeding, or sprigging of treated areas within 4 months after application of this product may inhibit the establishment of desirable turfgrasses. When seeding, follow good cultural practices such as soil cultivation, irrigation and fertilization. For best results, use "silt seeders" designed to give good seed-to-soil contact.

**TIPS FOR IMPROVED CONTROL:** For best results, apply this product within a few days after mowing and delay mowing again for a few days after the application. For improved weed control, water or irrigate treated areas within a few days after application. Aeration, raking or dethatching of lawns should be done before application of this product.

SPREADER SETTINGS to apply at the listed pounds per 1000 sq. ft.

	3.6 lbs	4.8 lbs	7.2 lbs	8.6 lbs
Boyer 24-22 Rotary	4.0	4.4	5.1	6.5
LESCO Rotary	12(F)	14(G)	16(H)	20(J)
Prizelawn CB Rotary	4.4	4.7	5.8	7.5
EarthWay 2400 Rotary	17	19	20	21
Cyclone Pro	3.6	4.4	5.1	8.0
Scotts RBA	I	J	L	N
Lely Broadcast	2.8	3.3	3.9	5.0
Bigfoot	H-J	I-J	J-K	L-M

Settings shown are approximate for new equipment. Your spreader may need calibration, due to differences in terrain, walking speed and equipment condition. Calibrate your spreader to ensure proper coverage. Clean & lubricate spreader after use.

**WEEDS CONTROLLED:** This product will control (at post-emergence rates) or suppress (at pre-emergence rates) these weed grasses and broadleaf weeds when applied before weeds emerge in lawns: crabgrass, annual bluegrass (Poa annua), barnyardgrass, crowfootgrass, foxtail (yellow & green)\*, goosegrass, kikuyugrass (seedling), common lespedeza, buttercup oxalis, creeping oxalis, yellow woodsorrel, pineappleweed, puslane (common), ryegrass (annual & perennial), smutgrass (seedling), corn speedwell, prostrate spurge, spotted spurge, bittercress, chickweed, Carolina geranium, herb, parsley-plant. \*Foxtail is also controlled at the pre-emergence rates.

When soil testing or professional advice indicates the need for additional plant nutrients, make additional applications of fertilizer products over the growing season.

This product may stain driveways, walks, patios, pools, etc. Wash or sweep off thoroughly immediately after each use.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in original container in a locked storage area out of reach of children and domestic animals.

## DISPOSAL:

If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place any unused product down any indoor or outdoor drain or toilet.

**NOTICE:** Buyer and user assume all risks and liability of use, storage and/or handling of this product not in accordance with the directions for use on this label.
