

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS

DANGER

CORROSIVE
CAUSES EYE DAMAGE AND SKIN BURNS

MAY BE HARMFUL OR FATAL IF SWALLOWED
MAY BE HARMFUL IF ABSORBED IN LARGE
AMOUNTS THROUGH SKIN.

Do not get in eyes, on skin, on clothing. Wear goggles or
face shield and rubber gloves when handling. Avoid
breathing vapor or mist. Avoid contamination of food.
Do not take internally. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not dis-
charge it into lakes, streams, ponds, or public water,
unless in accordance with a NPDES permit. For guidance,
contact your regional office of EPA. Do not contami-
nate water by cleaning of equipment or disposal of
waste.

S

Cooling Tower Algaecide-Slimicide

ACTIVE INGREDIENTS

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₀)
dimethyl benzyl ammonium chloride 10%

INERT INGREDIENT

Water 90%
TOTAL 100%

KEEP OUT OF REACH OF CHILDREN
DANGER
STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink promptly a large quantity of
milk, egg whites, or gelatin solution, or if these are not
available, 1 or 2 glasses of water. Avoid alcohol. Get
medical attention at once. Do not induce vomiting or
give anything by mouth to an unconscious person.

IF ON SKIN: Wash thoroughly with soap and water.
Remove and wash contaminated cloth-
ing before reuse.

IF IN EYES: Flush with plenty of water for at least
15 minutes. Call a physician.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of
gastric lavage. Measures against circulatory shock, respira-
tory depression, and convulsions may be needed.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

If it is a violation of Federal Law to use this product in a manner
inconsistent with its label.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by stor-
age or disposal. Open dumping is prohibited. If plastic, do not
reuse empty container.

DISPOSAL: Pesticide or rinseate that cannot be used or chemical-
ly reprocessed should be disposed of in a landfill approved for
pesticides or buried in a safe place away from water supplies.
Triple rinse (or equivalent) all containers and, for metal con-
tainers, offer for recycling or reconditioning (for plastic contain-
ers dispose in an incinerator), or dispose in landfill approved for
pesticide containers or bury in a safe place. Consult federal
state or local disposal authorities for approved alternative
procedures.

TREATMENT DIRECTIONS

COOLING TOWER ALGAECIDE-SLIMICIDE

1. Initial Dose. To a clean system with no visible algae or
microbial slime, add 3 gallons of 440 Algaecide-Slimicide per
10,000 gallons of cooling water. If algae or microbial slime are
visible, add 6 gallons of 440 Algaecide-Slimicide per 10,000
gallons of water. Repeat until control is achieved. Badly fouled
systems must be cleaned before beginning treatment.

2. Maintenance Doses in Towers with Continuous Feed
Equipment. After adding the first dose and achieving control,
maintain a level of 10 ppm of active ingredient by adding 440
Algaecide-Slimicide continuously at a rate of 1 gallon per 10,000
gallons of "bleed-off". If algae or slime begin to grow, add a
"slug dose" of 3 gallons of 440 Algaecide-Slimicide per 10,000
gallons of cooling water. Follow the "slug dose" by maintaining
a level of 10 ppm active ingredient.

3. Maintenance Dose in Towers Without Continuous Feed
Equipment. After adding the initial dose and achieving control,
add 1 to 3 gallons of 440 Algaecide-Slimicide per 10,000 gal-
lons of cooling water once weekly or more often to prevent the
growth of algae or slime. If growth occurs, add a "slug dose"
of 3 to 6 gallons of 440 Algaecide-Slimicide per 10,000 gallons
of cooling water and then maintain a level of 10 ppm of active
ingredient.

NOTE: 440 Algaecide-Slimicide must be added at a point in
the cooling system where it can mix uniformly into the circulat-
ing water.

Rabon Fly Killer Premix S-5

(Contains Rabon® Oral Larvicide)

To prevent the development of House Flies in the manure from treated swine.

ACTIVE INGREDIENT	BY WEIGHT	* refers only to ingredients which are not larvicidal.
3-Chloro-1-(2,4,6-trichlorophenyl) vinyl dimethyl phosphite.....	2.50%*	** RABON methiodide-Contains 11.24 grams of RABON per pound.
INERT INGREDIENTS	97.50%*	RABON is the registered trademark of Shell Oil Company.
TOTAL	100.00%	U.S. Patent No. 3,108,842.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See label for additional precautionary statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION

Irritant if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or drinking. If exposed, wash with plenty of water. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

No pre-slaughter withholding period is required.

Flys (weaners to market weight): Mix 4 lbs. of Swine Oral Larvicide per ton of meal type feed and offer free choice. This is equivalent to 22.7 mg. of Rabon per lb. of feed.

Sows, Boars, and Breeding Gilts: Mix 8 lbs. of Swine Oral Larvicide per ton of meal type feed and offer 4-6 lbs. of feed per animal per day. This is equivalent to 45.4 mg. of Rabon per lb. of feed.

Start feeding Swine Oral Larvicide early in the spring before flies begin to appear and continue feeding program throughout the summer and into the fall until cold weather restricts fly activity.

All swine should be treated. Swine Oral Larvicide prevents development of house flies in the manure from treated swine but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around the area to control adult flies which move in from other areas or which breed on decaying vegetable matter elsewhere on the premises.

In order to achieve optimum fly control, Swine Oral Larvicide should be used on conjunction with other good management and sanitation practices.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Pesticide that cannot be used according to label instructions must be disposed of according to applicable Federal, State or Local procedures.

Container Disposal: Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State or Local authorities.

WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions.

Seller makes no other express or implied warranty of fitness or of merchantability, and no agent of Seller is authorized to do so except in writing and with specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
