

O-SO-SOFT BACTERIOSTATIC LAUNDRY SOFTENER CONCENTRATE is a highly active mixture of 2 amine quaternary ammonium compounds and together with an effective fabric softener.

Soiled and contaminated fabrics such as diapers, hospital gowns, floor coverings, and other equipment is a major housekeeping problem in hospitals, hotels, motels, restaurants, schools, and other institutions. Used as directed, **O-SO-SOFT** imparts an effective residual bacteriostatic treatment together with softening to laundered items such as towels, linens, institutional linens, and athletic apparel. This product may effectively protect the fabric against rapid bacterial growth caused by moisture and wet contamination.

O-SO-SOFT is designed for commercial and institutional laundry use by adding to the rinse. Laundered fabric may also be treated and softened by soaking in a solution of **O-SO-SOFT**. For recommended solution concentration, see the Directions.

O-SO-SOFT Bacteriostatic Laundry Softener Concentrate is a chemically stable, fast-acting concentrate. It should be handled with care.
