DETERGENT SANITIZER

FOOD PROCESSING EQUIPMENT AND UTENSILS—DAIRY-BREWERY-WINERY
 DISHES AND GLASSES—FLOORS-WALLS-DECKS-DUCKBOARD, ETC.

ACTIVE INGREDIENTS

Sodium dichloro-s-triazinetriolone dihydrate (provides 3.2% available chlorine)	5.6%
Sodium dodecyl benzene sulfonate	4.0%
Sodium metasilicate	5.0%
INERT INGREDIENTS	85.4%

KEEP OUT OF REACH OF CHILDREN

WARNING

PHYSICAL TREATMENT (FIRST AID): If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Flush with cold water for at least 15 minutes. Get medical attention.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FOR EQUIPMENT-UTENSILS-GLASSES-DISHES: Prepare a sanitizing solution by dissolving 3 1/4 oz. or 3 1/2 oz. of PM Detergent SANITIZER per 10 gal. of water (100 or 200 ppm resp.). Clean and rinse items prior to sanitizing. Place items in solution for 2 to 5 minutes. Remove, rinse with potable water and dry. Use the same solution for use in feed tank in immersion or spray type machines. Clean and rinse items prior to sanitizing. Allow 2-5 minute contact time for sanitizing. After treatment, rinse well with potable water and allow to dry.

FOR FLOORS, WALLS AND OTHER HARD NON-POROUS FLAT SURFACES: Sweep up to remove excess particles of soil. Then clean and sanitize in one step with stock solution. Let stand 2-5 minutes then rinse with potable water.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional PM Detergent SANITIZER should be added, to give 200 ppm available chlorine PM Detergent SANITIZER.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
 Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Strong Oxidizing Agent. Mix only with water. Use clean, dry utensils. Do not add the product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, or possible generation of fire and explosion. In case of contamination or decomposition, do not reseat container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.
