DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start-up, superchlorinate with 100 ppm of available chlorine solution for each 10,000 gallons of water. This is approximately 5 ppm available chlorine by weight.

For Pool Maintenance:

- A. Adjust pool water pH to 7.2-7.6 and 1.1.
- B. Add manually at 100 ppm level for 10,000 gallons of water. Maintain a 1 ppm available chlorine level at all times. Add 1.1 ppm of this product to 10,000 gallons of water. Add 1.1 ppm available chlorine to 10,000 gallons of water. Add 1.1 ppm available chlorine to 10,000 gallons of water. Add 1.1 ppm available chlorine to 10,000 gallons of water. Add 1.1 ppm available chlorine to 10,000 gallons of water.

**DIRECTIONS FOR DISINFECTION OF POTABLE WATER
FOR HOME WELL WATER SYSTEMS**

Dilute this product with water in the ratio of one part of product to 100 parts of water. Mix and use immediately. Treat all water thoroughly and begin feeding of salt or with a hypochlorite metering pump. Maintain a free available chlorine residual of at least 0.2 ppm throughout the distribution system. Be determined by a DPD or a test kit. Bacteriological sampling must be conducted at a frequency as specified in the National Internal Primary Drinking Water Regulations. Test water frequently with a DPD chlorine test kit.

*Contact your local Health Department for further details.

**DIRECTIONS FOR SANITIZING FOOD PROCESSING
OR DAIRY EQUIPMENT**

Clean equipment in the usual manner. Just before use, immerse in a solution of this product with this product. Immerse in a solution of 100 ppm available chlorine. Maintain contact with disinfectant for a minimum of 15 minutes. Rinse thoroughly with water after treatment with this hypochlorite solution. Do not drink or eat from. Addition of one part of this product to 100 parts of water will produce a solution of 1 ppm available chlorine.

NOTE: This product is not to be used for the disinfection of swimming pools. It is necessary to maintain the proper pH level of the water.

STORAGE AND DISPOSAL: Store in a cool, dry place away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product for use that cannot be used, should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage, disposal or re-use of equipment.
