# No More Algae®

AQUARIUM CLEANING PAD

### ENGLISH

**DIRECTIONS FOR USE:** The Algae Remover features a non-abrasive cleaning pad that safely removes algae, water lines, salt residue and hard water deposits from glass, acrylic, plexiglas and plastic aquariums. Can also be used to clean plastic plants, ornaments, filters, hoods, frames, stands and other aquarium accessories. Before each use, wet the pad, then gently rub surfaces to be cleaned. Rinse pad with tap water after each use.

**Caution:** Avoid getting sand or gravel on the pad, as these will cause scratches. Avoid using extreme pressure as this may cause surface scratches or glass breakage. Do not use on dry surfaces.

If using a cleaning product with the Algae Remover, avoid using household liquid detergents as these may contain ingredients which are harmful to fish. Use Jungle® Serri Clean® or Lime Off® aquarium cleaning solutions; safe - effective - leaves no harmful residues.

### FRANÇAIS

**MODE D'EMPLOI:** Le produit est présenté sous forme d'une balayette-éponge non abrasive qui décolle en toute sécurité les algues, résidus de sel ou dépôts de calcaire présents sur les parois des aquariums en verre, acrylique, plexiglas ou plastique et sur leurs accessoires. Il peut également être utilisé pour le nettoyage des plantes en plastique, objets décoratifs, filtres, couvercles, montants, socles et autres accessoires séparant les aquariums.

L'éponge doit être humidifiée avant chaque emploi et rincée à l'eau du robinet après chaque utilisation. Frotter doucement les surfaces devant être nettoyées.

**Attention:** Faites attention de ne pas introduire de sable ou de graviers sur l'éponge, afin de ne pas rayer les surfaces. Évitez d'appuyer trop fort afin de ne pas rayer les surfaces ou casser les parois. Ne pas utiliser sur les surfaces sèches.

En cas d'utilisation simultanée de la balayette-éponge et d'un autre produit de nettoyage, veuillez éviter l'emploi de détergents liquides ménagers, leurs contenus peuvent être nuisibles ou bien-être des poissons. Pour le nettoyage des aquariums, utilisez Jungle® Serri Clean® ou Lime Off®, des solutions de nettoyage aquariums utilisant une propriété nette, en toute sécurité et sans laisser de résidus nuisibles.

### ESPAÑOL

**MODO DE EMPLEO:** El producto para quitar algas se presenta como una esponja limpiadora, no abrasiva, que quita sin riesgo las algas, líneas de agua, residuos de sal y los depósitos de agua dura de los acuarios de vidrio, acrílico, plexiglas y plástico o sobre los accesorios. Se puede usar además para limpiar plantas de plástico, adornos, filtros, cubiertas, arcazones, platatermos y otros accesorios para acuarios.

Antes de cada uso, moje la esponja, luego frota suavemente las superficies por limpiar. Enjuague la esponja con agua de la llave después de cada uso.

**Precaución:** Evite que la esponja recoja arena o grava, ya que se puede rayar la superficie. Evite usar demasiada presión, ya que esto puede rayar la superficie o hacer que el vidrio se quiebre. No lo use en superficies secas.

Si usa un producto de limpieza junto con el producto para quitar las algas, evite usar los detergentes líquidos para el hogar, ya que éstos pueden contener ingredientes que son nocivos para los peces. Use las soluciones Jungle® Serri Clean® o Lime Off® para limpiar acuarios; seguro - eficaz - no deja residuos nocivos.

### FIRST AID

If swallowed:	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
If in eyes:	<ul style="list-style-type: none"> <li>• Hold eyes open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after first 5 minutes, then continue rinsing.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
If on skin:	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **NO MORE ALGAE** helps inhibit the growth of many types of algae in freshwater aquariums, including free-floating algae blooms and algae which grows on the sides of glass and acrylic tanks. Do not use in tanks with live plants, snails or other invertebrates. Remove carbon from filter during use. **USE ONE TABLET FOR EACH TEN U.S. GALLONS (40 L) OF AQUARIUM WATER. REPEAT TREATMENT WHEN ALGAE GROWTH BEGINS TO APPEAR.** NOTE: Not for use in soft and/or acid water with low alkalinity. For regular maintenance, use once a month or as algae starts to appear. For best results, if algae is already present on sides of aquarium, wipe clean with a Jungle Algae Remover Aquarium Cleaning Pad.

**STORAGE AND DISPOSAL:** Storage: Store in an area inaccessible to children, water supplies and feed. Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

For Aquarium Use Only  
Not for Use on Food Fish
