If on skin:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

No More Algae Liquid – Prevents Algae Growth

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

No More Algae Liquid helps inhibit the growth of many types of algae in freshwater aquariums and backyard/homeowner ponds (limited to a maximum capacity of 3,000 U.S. gallons [11000 L]). Also retards growth of suspended algae blooms and algae which grows on the sides of backyard ponds and aquariums. Do not use fish from treated ponds for food or feed. Discontinue carbon filtration while using.

SHAKE WELL BEFORE USING. USE ONE TEASPOON (5 mL) OR ONE CAPFUL TO TEN U.S. GALLONS (40 L) OF AQUARIUM OR POND WATER. As regular maintenance, repeat treatment when algae growth begins to appear. For best results, if algae is already present on sides of aquarium, wipe clean with a Jungle Algae Remover Cleaning Pad. Contents treats up to 480 U.S. gallons (1800 L). Do not use in tanks or backyard ponds with live plants, snails or other invertebrates.

STORAGE AND DISPOSAL: **Storage** Store in an area inaccessible to children, water supplies and feed. **Disposal:** Do not reuse empty container. Wrap container and put in trash.
