ANT AND ROACH KILLER

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS: Important: Hold container only in upright position to spray. Keep spray actuator pointed to mark on valve cup. Direct spray from face. Insert extension tube into actuator and hold container 6 to 12 inches from surface and spray area of infestation. Thorough applications produce a coating that will vaporize into cracks and crevices for insect control. If reinfestations occur, repeat applications as necessary. Use for spot treatment only. ROACHES, RESISTANT ROACHES, WATERBUGS, CRICKETS AND CENTIPEDES: Thoroughly treat cracks and crevices around baseboards, shelves, cupboards and other places where roaches habitate. ANTS: Treat ant trails, around door sills and window frames and other places where ants may enter. Apply directly to ant hills. CLOVER MITES AND SOWBUGS: Spray windows and door sills and other points of entry. Apply to outside foundation around doors, windows, porches and along foundation next to ground. For outdoor use on flies, mosquitoes and gnats, apply on screens, door and window frames, light fixtures and other surfaces where insects congregate. PAPER NEST WASPS: Apply a wet spray to the nests after dark when all pests have returned to their nests. SCORPIONS, BLACK WIDOW SPIDERS AND OTHER SPIDERS: Spray directly on pests when possible. Treat surfaces of garages and outbuildings where pests hide or congregate. Spray points of entrance such as window sills and along crevices. SILVERFISH: Apply to cracks, baseboards, behind shelving, bookcases and other storage areas. BROWN DOG TICKS: Thoroughly spray cracks, crevices and areas where pets are in the habit of lying down. Do not spray on pets. Allow the sprayed areas to dry thoroughly and replace bedding before permitting use by animals. In treating dog kennels apply to outside dog runways, window sills and ledges. For control of roaches in dog kennels, treat all cracks and crevices. For control of flies, gnats and mosquitoes, spray outdoor surfaces of screens door and window frames and other outdoor surfaces where these pests congregate. FLYING ANTS: Spray directly on swarming ants outdoors. Only spray while ants are swarming on the ground. Do not spray in air.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if swallowed. Avoid prolonged breathing of spray mist or repeated contact with skin. Wash thoroughly after using. Do not contaminate feed, foodstuffs, utensils, dishes or drinking water. Do not apply to areas that will be contacted frequently by children and do not allow them in treated areas until surfaces are dry. Do not apply to humans, pets, birds or near fish bowls. Avoid excessive wetting of plastics, vinyl or asphalt tile. Do not use as a space spray.

STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED: Call a doctor or get medical attention. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol. IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists. IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists. IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. NOTE TO PHYSICIAN: ATROPINE SULFATE IS ANTIDOTAL.

PHYSICAL OR CHEMICAL HAZARDS: Extremely flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in a cool area away from heat or open flame. DISPOSAL: Do not incinerate empty container. Wrap container and put in trash collection.
