AIRYSOL Surface Disinfectant Spray, EPA Reg# 33176-24: EPA DRAFT 04/15/2004

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands before eating, drinking chewing gum, using tobacco or using the toilet. Avoid contamination of food and food utensils. In case of food contact, surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information. [Toll free phone number language may be modified to fit company's policy] [National Poison Control is 1-800-222-1222] *Hold eye open and rinse slowly and gently with water for 15-20 minutes. *Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. *Call a poison control center or doctor for treatment advice

[Note: Paragraph format may be used if space on label is limited.]

PHYSICAL OR CHEMICAL HAZARD: Flammable! Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is designed for use in Homes, Nursing Homes, Hospitals, Institutions, Offices, Schools, Motels and Hotels. When used as directed this product will disinfect inanimate hard surfaces (such as walls, desk tops, sink tops, telephones, door knobs, diaper pails, toilet seats, bed pans, linen carts, hampers, wheel chairs, light switches, garbage pails) and other clean inanimate hard nonporous surfaces. This product demonstrates effective disinfection against Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa, Trichophyton mentagrophytes. This product is fungicidal against Pathogenic fungi (Athletes Foot Fungus), when used as directed on hard surfaces found in the bathroom, shower stall, and locker room, or other clean hard non-porous surfaces commonly contacted by the bare feet. In addition, this product disinfects and deodorizes those areas which generally are hard to keep fresh smelling (such as garbage storage areas, empty garbage bins and cans, restrooms, shower stalls) and other areas which are prone to odors caused by microorganisms.

SURFACE DISINFECTION AND DEODORIZATION: (1) First remove soil deposits from surface to be treated. (2) Shake well before using. (3) Hold can six inches from surface and spray until completely wet, allowing the surface to remain wet for 10 minutes. Food contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to use.

MOLD AND MILDEWSTAT: To control mold and mildew on hard non-porous surfaces (such as floors, walls, table tops), spray the surfaces to be treated. Making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

[Alternate Directions for Grooming Clippers]

This product has been designed for use by veterinarians, animal groomers, hair stylists, barbers and beauticians for use in disinfecting and maintaining clippers. It acts as a virucide and bactericide while also cooling, cleaning lubricating and providing protection against rust. Regular use will help to maintain germ free blades that operate with reduced friction and with smoother clipping action. Will help to prolong equipment life. This product is designed for use in pet salons, animal hospitals, barber and beauty shops. When used as directed it will disinfectant metal clipper blades as well as many other hard surfaces.

TO DISINFECT GROOMING CLIPPERS: Turn the clipper off occasionally during use and spray between teeth of blades. Spray away hair, dandruff and dust particles while cooling and disinfecting the blades.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

STORAGE: Store in a cool area away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate!

If Empty: Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions
