

Crystalab Humidifier Water Treatment has been designed for use with all makes of humidifiers. When added to the water reservoir in a humidifier it will reduce bacterial count, deodorize the air and reduce objectionable odors. Keep your humidifier working to its most capacity.

DIRECTIONS

Badly fouled systems must be cleaned before treatment is begun. Follow manufacturer's recommendations as to the method and frequency of cleaning the humidifier.

Shake well before using. To reduce slime growth in humidifier water, initially add a dosage of 4½ capfuls (1½ oz.) of Humidifier Water Treatment for each gallon of water in the humidifier tank. For continued protection add 1½ capfuls (½ oz.) of Humidifier Water Treatment for each gallon of water added.

CAUTION

Keep out of reach of children. Avoid contact with skin, eyes and clothing.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes.
