

SAHARA weed killer (Granular) is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-cropland areas and for use on a wide range of agricultural areas. 200-400 pounds per acre applications of SAHARA Granular per acre usually control most weeds and grasses for a period of 6 weeks or more. The duration of non-productivity is dependent upon the rainfall, soil type and other conditions.

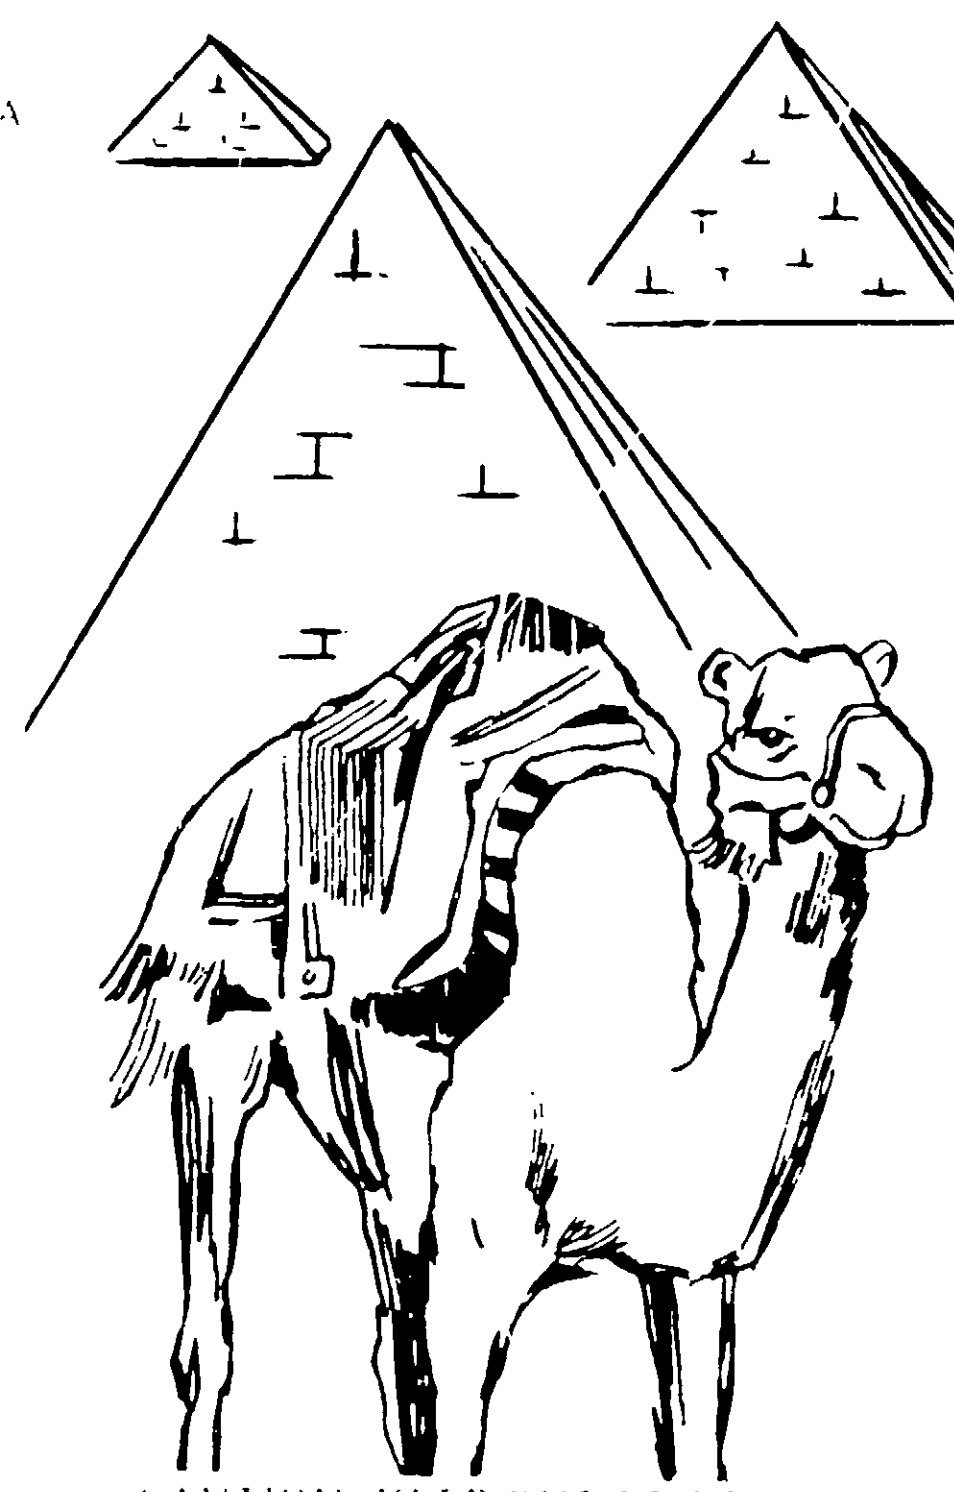

DIRECTIONS. SAHARA Granular Weed Killer should be applied as a broadcast with a seed spreader, a fertilizer spreader, a shaker type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. Application equipment is available from STAT. For the control of annual and most perennial weeds and grasses, apply SAHARA Granular at the rate of 200-400 pounds per acre, on the smaller plots, 0.5-1.0 pounds per 100 square feet. Repeat spot treatment may be required when deep rooted perennial weeds are present. To obtain the best results, SAHARA Granular should be applied to the ground where it will be applied directly to the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. SAHARA Granular may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experiment stations or extension service weed specialists for recommendations as to use in their particular area or write to STAT.

ACTIVE INGREDIENTS	
1,1-Dichloro-2,2-bis(4-chlorophenyl)ethane	1.0
Inert Ingredients	99.0
TOTAL	100.0

SAHARA

GRANULAR WEED KILLER

CAUTION: KEEP OUT OF REACH OF CHILDREN.

See other precautions on the side panel.

Net Contents:

CAUTION: MAY CAUSE IRRITATION TO SKIN, EYES, NOSE AND THROAT. Avoid contact with skin, eyes and clothing. Avoid breathing dust. In case of contact, wash skin with soap and water. In case of contact with eyes, immediately flush with large amounts of water for at least 15 minutes, and get medical attention. Remove and wash contaminated clothing before reuse.

IMPORTANT: Do not apply on or near valuable woody or herbaceous plants, or on areas where their roots may extend, because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not store near fertilizers, seeds, insecticides or fungicides. Store away from feed and do not contaminate feed and foodstuffs. Do not contaminate irrigation ditches or water used for domestic purposes. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas. Do not reuse this container, dust, or when empty. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
