

TRI-BAC DISINFECTANT CLEANER is an industrial cleaner which disinfects quickly. It is especially designed for schools, restaurants, laundries, and other food service industries. A simple dilution removes dirt, grease, fats, oils and bacteria. It can also protect the hard surfaces it contacts from **TRI-BAC DISINFECTANT CLEANER**. It is safe, effective, and has a low hazard of corrosion to metal.

TRI-BAC DISINFECTANT CLEANER is extremely effective against most common sanitizing bacteria at one-half ounce per gallon water. At two ounces per gallon, it is effective against most common sanitizing bacteria, water and soil. Sanitizing solution is safe, complete, so there is no waste when used as directed.

When used as directed, **TRI-BAC DISINFECTANT CLEANER** will deodorize rest rooms, bathrooms and under sinks and counters. Garbage cans and other places where bacterial growth can cause malodors.

WARNING

Keep out of reach of children. Causes eye and skin irritation.

Avoid contamination of food. Harmful if swallowed.

Avoid getting product in the eyes. In case of contact, flush copiously with water and seek medical attention.

Avoid getting product on the skin. In case of contact, flush copiously with water immediately to avoid possible skin irritation.

USE DIRECTIONS

Add two ounces per gallon water.

Apply **TRI-BAC DISINFECTANT CLEANER** to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop.

*At two ounces per gallon use level, **TRI-BAC DISINFECTANT CLEANER** is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli* and *Trichophyton interdigitale*, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use Dilution Test. Fungicidal performance against *T. interdigitale* was determined by the AOAC Fungicidal Test.

* At two ounces per gallon use level, **TRI-BAC DISINFECTANT CLEANER** is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), *Vaccinia* (representative of the pox viruses), and *Influenza A₂* as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

Note: this product is not effective against *Pseudomonas aeruginosa* at this use level.

For sanitizing add one ounce per gallon of water.

Use **TRI-BAC DISINFECTANT CLEANER** for sanitizing cutting boards, knives, chopsticks and other food surfaces. When sanitizing food contact equipment and utensils and food contact surfaces, rinse thoroughly with potable water.

Do not reuse container. Rinse thoroughly with water before discarding or returning to drum reconditioner.
