TERM OF ISSUANCE

NOTICE OF PESTICIDE: ☒ REGISTRATION
☐ REREISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

AQUA GUARD STICKS

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

ALLIED UNIVERSAL CORPORATION
8850 N. W. 93rd Street
Miami, FL 33166

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration notice is being issued in accordance with Section 3(c)(7)(A) of the FIFRA subject to the following conditions.

(1) It is understood that you will submit and/or cite all data required for registration or re-registration of your product under Section 3(c)(5) of the FIFRA when the Agency requires all registrants of similar products to submit such data.

(2) You will submit two copies of your finished printed label complying with the requirements or revisions specified in the attachment to this registration notice. These labels must be submitted to the Agency by June 15, 1987. The product is released for shipment as required by Section 12-21 of June 15, 1987.

A stamped copy of the draft label is enclosed for your records. Your release of the product for shipment constitutes acceptance of these conditions. If the conditions are not complied with, the registration will be subject to cancellation in accordance with Section 3(c) of the FIFRA.

Sincerely yours,

J. H. LANGSTON
Acting Product Manager, 1-337
Registration Division (75-767)

PRECAUTIONARY STATEMENTS
HAZ. ADS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID PRACTICAL TREATMENT: If swallowed feed gruel, cooked cereal, or bread soaked in milk, followed by olive oil or cooking oil. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS: Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals or any foreign matter, may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.

2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a prescribed feeder to avoid discoloration of liner or paint.

3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.

4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.

5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose a gas that may be in cracks or crevices that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.

6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to a product in a closed container. Do not add this product to a small amount of water in a jar. When adding this product to skimmer make sure pump is on and water is circulating so that material is carried into recirculation system. Do not allow build up of dry material in skimmer as gases generated may cause an explosion.

AQUA GUARD

8 oz. Widge Sticks

Active Ingredients:
Trichloro-s-triazinetrione* 88.0%
Inert Ingredients 1.0%
*Provides 88% Available Chlorine

**KEEP OUT OF REACH OF CHILDREN
DANGER**

**SEE FIRST AID STATEMENT AND OTHER
PRECAUTIONS ON SIDE PANEL
BEFORE OPENING CONTAINER**

NET WEIGHT 40 LBS.

DIRECTIONS:
 It is a violation of Federal law to use this product if:
 1. Adjust water pH to 7.2-7.6 as determined by pH factor is 7.6-7.8.
 2. If the pool has not been previously shocked, follow the directions for use on the label for 3-5 days.
 3. Secure chlorinator in the area of pool that remains too high. Chlorinator should be on the dissolving action of the label.
 4. In newly filled pools, follow steps 1 thru 3, water to establish a chlorine residual of 1.0 dosage as needed to maintain a residual of 1.0 mg. per 7,500 gal. per week or as needed p.p.m. at all times as determined by a test. Then add 1 mg. per 7,500 gal. per week to 1.5 p.p.m. at all times as determined by a test. Please note: The pH of 7.2 day slow dissolving tend to reduce the pH and alkalinity of the pH 7.2 to 7.6 as determined by a test, by pH carbonate.

Each stick weighs 8 oz.
 Use also in Automatic Chlorinators.
STORAGE AND DISPOSAL: Keep product in a cool, dry, well ventilated area. A position isolate container in open area if possible. Do not reuse empty container. Rinse empty material before discarding. Place in trash bury in a safe place.

EPA Registration No. 33458-19 Date Issued _____

Company Name Allied Universal Corporation

Product Name AQUA GUARD STICKS

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Reg. No. 33458-19. This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.
2. The labels which will be used for this product in channels of trade must reflect these revisions.
3. Two copies of the finished printed labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.
4. The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. If the label does not satisfy these requirements it will be rejected.
